ADMINISTRATOR'S NOTICE TO CREDITORS.

In the Estate of Maria Timmons, deceased.

Notice is hereby given pursuant to Chapter 121. of the Revised Statutes of Ontario, 1914 Section 56, and amending Acts, that all persons having any claims or demands against the estate of Maria Timmons, late of the Township of Camden, in the County of Lennox & Addington, married woman, deceased, who died on or about the 11th day of October, A. D. 1913, are required to deliver or send by post prepaid to Herrington, Warner & Grange, Napanee, Ontario, Solicitors for Joseph Timmons, Administrator of the last will and testament of the said Maria Timmons, deceased, on or before the 15th day of March, A. D. 1915, their christian and surnames, addresses and descriptions, with full particulars of their claims or demands duly verified, and the nature of the security (if any) held by them.

And further take notice that after the said 15th day of March, A. D. 1915, the said Administrator may proceed to distribute the assets of the said estate amongst the persons entitled thereto, having regard only to the claims or demands of which he shall then have received notice, and shall not be liable for the said assets, or any part thereof so distributed, to any person or persons of whose claims or demands he shall not have received notice at the time of the distribution thereof.

HERRINGTON, WARNER & GRANGE,

Solicitors for the said Administrator.

AN ADDRESS TO THE VOLUNTEERS

Sunday morning last on the occasion of the local volunteers attending divine service in St. Andrew's Presbyterian Church, the pastor, Rev. A. L. Howard, after a short exhortation, presented them with the following address:

ADDRESS.

Honored officers and soldiers:—It is an esteemed privilege to address a word to you before you go to our war. And that privilege becomes a high honor when I realize that you seek a Church's message for you. For why should the Church of the Prince of Peace interest itself in, and even become enthusiastic over, this warfare? We believe in the Sovereignty of God whereby every act becomes an act of His mere pleasure. And the same God that ordered the chosen people to defend themselves by an active warfare against the inroads of the heathen tribes about the Promised Land, is our God to-day, and our very Lord of Hosts, even more significantly than in the day of the prophets of Israel. He sits upon His throne to-day to exercise His sovereignty in enabling, by His fore-ordaining power, the lovers of truth and freedom to wage a war against tyranny and militarism—even a war "that all wicked wars may cease."

Young soldiers, noble defenders of a free Empire, this is the huge task you volunteer to engage upon—this is the task to which you heroically go, for King and people. And may your hearts be proud in anticipation of having a part in that world-struggle to exterminate war forever.

"Noblesse oblige" is a Latin phrase which I would apply to you who fight for the cause of honor, truth and freedom. "Noblesse oblige" means "nobility obliges," or "nobles must act nobly." You are nobles. You and I have lived in an age when we, comparatively speaking, have had no disciplining nor training in chivalry and nobility. Cowper, I believe, says:

"How'er it be, it seems to me,
'Tis only noble to be good."

The righteousness of our cause becoming an incentive to a soldier to enlist for service makes him noble. So, if you have engaged in this soldiering from Britain's motive, namely, that no Belgium should be crucified and no innocents slaughtered, we must address you humbly for we recognize your honor and your chivalry. That you are brave we need not wait the day of the baptism of fire and lead to learn, but we see it in your motive of enlistment, and we are ready to give you, even now, the noble's laurel and to wish you God speed in your march to victory. The Lord of Hosts be with you.

But note that this benediction is

TAMWORTH.

The snow is nearly all gone & some of the roads are dry.

The time is nearly here for making maple syrup. It does not look like a big run as the snow is about gone. The signs are for an early spring.

The Toronto News stated that the people from Tamworth were Napanee for the Robinson trial, but the News was far off the mark. Most of the best people stayed home. Few went, only those who had to go. The case was not enticement to most people here.

The Red Cross Society is progressing. The ladies tea in aid of the Society was well attended and splendid results from it.

On Thursday, March 11th, a lecture will be given in the Town Hall, by Dean Starr, with lantern views of the war and all concerning the war in aid of the Red Cross Society, aiding the boys in the trenches in the front.

MORVEN.

The sowing of clover seed has begun in this community. Look out for maple syrup soon.

Spring birds are beginning to cheer up and young people realize the impulses of the glad spring-time as witness the call of a young couple at the Methodist parsonage here last Saturday morning bright and early.

The people were much pleased with the young man who supplied the pupils on this Morven Methodist school last Sunday.

A rare treat awaits the Methodist congregations here next Sunday with the Rev. Dr. Ryckman, of Kingstons a noted divine, will (D.V.) preach the Educational Anniversary services. Brick Church at 10.30 a.m., Luther Church at 3 p.m., and at White Church at 7 p.m. Do not fail to hear these special sermons, nor forget the importance of a liberal offering from everybody, old and young, to aid the great work of the Methodist Educational Society.

PLEASANT VALLEY.

Mrs. W. R. Fretts spent last week with her daughter, Mrs. E. P. Smit.

Mr. John Funnell is sawing wood in the neighborhood.

Mr. George Frisken sold his farm to Mr. Rombough.

is only only noble to be good. The righteousness of our cause becoming an incentive to a soldier to enlist for service makes him noble. So, if you have engaged in this soldiering from Britain's motive, namely, that no Belgium should be crucified and no innocents slaughtered, we must address you humbly for we recognize your honor and your chivalry. That you are brave we need not wait the day of the baptism of fire and lead to learn, but we see it in your motive of enlistment, and we are ready to give you, even now, the noble's laurel and to wish you God speed in your march to victory. The Lord of Hosts be with you.

But note that this benediction is meant for you who have warrior souls but who love not war for its own sake. Ruskin, who has advocated the advantages of war to the professional world of art, was very careful to set forth his philosophy of human nature, which loves adventure and conflict and the mastery, as a foundation for his advocacy of war. He says that the exercise of nature as we find it must be prudently made finding man naturally restless and a lover of conflict, he insists that those qualities be properly disciplined, as for example when "the natural" ambition and love of power of men are disciplined into the aggressive conquest of surrounding evil; and where the natural instincts of self-defence are sanctified by the nobleness of the institutions, and purity of the households, which they are appointed to defend. To such war as this all men are born; in such war as this any men may happily die; and out of such a war as this have arisen, throughout the extent of past ages, all the highest sanctities and virtues of humanity." As the orderly planets found their places out of a firmament of conflict, so have men found their well ordered lives through conflict and struggle that have forced them to the Creative and Providential Throne for their wisdom, power and virtue.

The British Empire to-day has drawn near to God's throne and has learned that mercies are hers while she defends the name of Christ and His freedom and pursues tyranny, barbarism and antichrist.

The other night one of your company, at a banquet of no small proportions, in responding to a toast to the volunteers, requested in the cool reflectiveness of a true soldier that the assembly pray for them. So long as God holds holy convocation and council, that long will prayer be a determining factor in any war, and certainly in this war where we have so clearly discriminated freedom and holy justice on the one hand, and brute force and unholy materialism on the other. Prayer in the extreme is a life. Many lives are now blowing the Gideon trumpet at the door of God's determining Council and the world echoes the conquering cry from God, "The sword of the Lord and of Gideon."

Lastly, my dear comrades in conflict, I would bid you have a pride in being one of Gideon's three hundred raised for this new day of war, and also that you do yourselves proud when you stand on German soil and hammer at the gates of Berlin, having for your conquering, chivalrous cry, "Sparta's spirit, and Britain's Christ." Prussia crushed and Germany free, "God save our King and Empire."

DAIRY SUPPLIES.

Butter color, dairy thermometers, milking tubes, teat dialators, in fact everything the dairymen need at Wallace's Drug Store, Limited. P.S.—Always a fresh stock.

Friskens visited Sunday at Mr. Rose's Deseronto Road.

Mr. A. J. Smith took tea Sunday at Mr. Isaac Taylor's.

Mr. and Mrs. G. H. Rankin and Misses Carmelita Friskens and Vert Denison at Mr. W. R. Pringle's Monday night.

PRESENTATION AND ADDRESS.

On Monday night about sixty of the neighbors met at Mr. W. L. Pringle's in honor of Mr. and Mrs. George Friskens and family, who leave on Monday next for the west. After a short programme of music singing and speeches, tea was served then the following address was read and presentation of eighteen pieces of Austrian China made, after which Mr. Friskens made a suitable reply. The evening was closed by singing "God be with you till we meet again."

To Mr. and Mrs. Geo. Friskens and Family:

Dear Friends: It was with considerable surprise and a very great deal of regret that we learned of your disposal of your farm, and your decision to remove from our community. During the years that we have been associated with you we have learned to esteem you as neighbor and to prize your friendship highly.

You have always made yourself one with us and proven true friend in every time of need, and we, as neighborhood will miss your bright cheerful faces and your willing, helpful deeds. It seems hard to sever ties that have been made through years.

The, too, we shall miss the Church Associations, where you always played your part in the Bible Class at the church services, striving to be and inspire the rest of us. We are you now, as a small token of our regard, to accept this little gift, as we hope that they will help to remind you of your friends of "Pleasant Valley," and convey to you assurance that with them go the best wishes and the earnest prayers of host of friends who desire that your future may be crowned with abundance and continued happiness.

Signed on behalf of your friends and neighbors.

BRITISH VICTORY OVER GERMANS NEAR LA BASSEE

Paris, March 10.—Via London.—Taking several German positions by storm between the Lys River and the La Bassee Canal, the British army won a brilliant success to-day against the Germans, the French War Office reported to-night. Over 1000 of the enemy were made prisoners and Neuve Chapelle was captured.

The engagement was started by a bombardment of the enemy's positions by the French heavy artillery, which acted in support, and which pulverized the German field works, and even blew up houses filled with Germans, bodily in the air. Then the British regiments in the trenches received the order to charge. Making a quick start, the thin khaki lines dashed forward. They advanced along the road from Estaires to La Bassee, captured the millage of Neuve Chapelle, which has been held by the Germans since the battle of the Lys in November, and charged forward to the northeast of this village towards Aubers. Another wing charged south-eastward in the direction of the Riez woods. Hundreds of Germans were attacked and bayoneted as they attempted to resist, and the war office reports that the losses of the enemy were very heavy.

The occupation of this position on the flank of La Bassee endangers the German forces holding that strong position.

The objective of the allies is the City of Lille, which controls an important centre of railways, and the occupation of which would cut off the German communications to La Bassee and other nearby points on the River Oise.

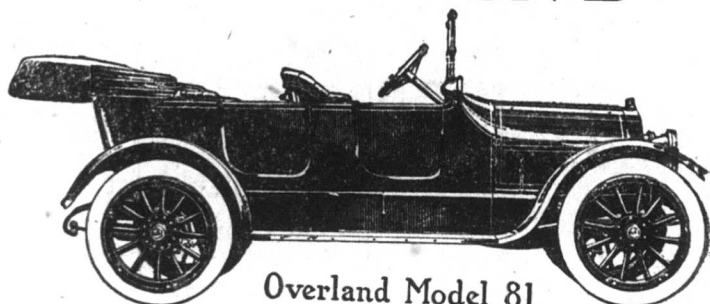

Canadian Regiment Checks Several German Attacks

London, March 10.—The Canadian regiment has just completed four days' duty in the trenches, fighting as a unit for the first time since landing in France. A report reaching here to-day says that the officers are delighted with the conduct of the men, who were as steady as regulars, and repulsed several attacks, as well as dealing a death blow at a German patrol party which came to examine the wire entanglements. The regiment is, practically intact, none being reported killed so far. Col. — is solicitous for the welfare of his men, who have comfortable billets just behind the trenches. The commissariat is excellent.

The Canadian artillery, firing heavily, destroyed some buildings and caused a flurry in the enemy's rear camp.

Another Submarine Sunk by British

London, March 10.—The British Admiralty announced to-night that the German submarine which was rammed and sunk to-day by the British torpedo-boat destroyer Ariel was the U-12, instead of the U-20, as previously stated. The Admiralty statement said:

"Later and more detailed reports have now been received which establish the fact that the German submarine which was rammed and sunk by H.M.S. Ariel was the U-12, and that out of her crew of 28 the number saved was ten."

The submarine U-12 was an older and smaller vessel than the U-20. She was of the class built in 1910-11. Her displacement was 250 tons, and she had a maximum cruising radius of 1,200 miles. Her war complement consisted of 28 men. She was armed with three 18-inch torpedo tubes and two 1-pounder high-angle guns. She had a speed of 13 knots above water and 8 knots submerged.

The U-12 has taken an active part in the German operations against British shipping. On February 21, she sank the small Irish coasting steamer Downshire in the Irish Sea, after giving the crew five minutes in which to leave their ship.

The loss of the U-12 makes the seventh German submarine to be destroyed since the beginning of the war, according to the statements given out officially in London.

BATH.

Caniff Young, Conway, has moved in the village to the house occupied by E. P. Shephard, having purchased the same from Mr. Shephard.

Fletcher Young, Sandhurst, has moved into the house formerly occupied by the late Mrs. Peterson.

E. P. Shephard has moved into Mrs. Fair's house in the west end of the village.

Handy and Attractive Shape for
the Readers of Our Paper—A
Solid Hour's Enjoyment.**

WEDNESDAY.

The ship building strike in the
great ship yards on the Clyde sud-
denly ended yesterday afternoon. The
men are returning to work.

The name of Thomas A. Edison
was connected yesterday with the new
submarine gun, experimental tests on
which have been going on at the
Brooklyn Navy Yard.

A serum said to have both preven-
tive and curative properties in the
treatment of gaseous gangrene has
been discovered by Dr. Weinberg of
the Pasteur Institute, Paris.

American Consul Fee, at Bremen,
reports all members of the crew of
the American steamer Evelyn, sunk
by a mine in the North Sea, are safe
except one fireman, who died from
exposure.

A bulletin issued yesterday says
that Madame Bernhardt is suffering
from an attack of an indisposition to
which she has long been subject, and
not connected with the operation she
recently underwent.

The death occurred in Edinburgh
yesterday of Prof. James Geikie, a
distinguished geologist. Prof. Geikie
was born in 1839. He was emeritus
professor of geology and mineralogy
at Edinburgh University.

So far, no less than 22 Italians
have enrolled in the second Canadian
Expeditionary Force in Quebec. They
say hundreds of their compatriots
throughout the country, are applying
for admission to the contingent.

THURSDAY.

Emperor William has given 50,000
marks (\$12,500) to the German Red
Cross for the benefit of German sol-
diers and civilians held prisoners in
France.

A Central News despatch from
Rome yesterday said it had been
learned there that England has pur-
chased the entire Argentine crop sur-
plus for 1916.

Official despatches to the U. S.
State Department from Vera Cruz
now place the number killed in the
blowing up of the Mexican gunboat
Progreso at forty.

The annual attempt of the German
Socialists to secure action in the
Prussian Diet looking to the reforma-
tion of the Prussian franchise sys-
tem, again has failed.

The New York State Assembly yester-
day recommitted by a vote of 69—
to 31 the Thorne Bill which permits
Christian Scientists to practice. This
kills the bill for the session.

The Metagama, the new ship for
the Canadian Pacific Atlantic service
reached Liverpool yesterday from
Glasgow. The vessel attained a speed
of seventeen and a half knots.

Maj.-Gen. Hugh L. Scott, chief of
staff of the U. S. army, left Washing-
ton yesterday for Bluff, Utah, to take
charge of the Government operations
in connection with the Pute Indian
uprising there.

The Brockville presbytery has
nominated Rev. Hugh Cameron of
Morrisburg as moderator of the Ot-
tawa and Montreal Synod, and Rev.
Dr. Scrimger of the Montreal Pres-
byterian College as moderator of the
general assembly.

FRIDAY.

Mrs. Helen Lee, aged 60, a widow,
fell down her cellar steps yesterday

afternoon passed a bylaw as follows:
"No person shall use any lamps other
than electric lamps when looking for
gas leaks."

William Snider, ex-mayor of Water-
loo, died in Berlin Saturday even-
ing, after an illness of two months,
in his 69th year. He was proprietor
of the Waterloo Flour Mill.

M. Mahoney, a farmer near Moose
Jaw, has been notified by the Admir-
alty that his 16-year-old brother,
Patrick, has been killed in action,
where and on what ship is not stated.

The British Admiralty announces
that out of a total of 1,613 ships ar-
riving at and 1,432 leaving Great Brit-
ain during the period from Feb. 18
to March 3, only seven were torped-
ed by hostile submarines.

James Brock, one of the oldest resi-
dents of Highland Point, near Pene-
tanguishene, died suddenly yester-
day from an attack of heart fail-
ure. He was driving a team of
horses on his way to town when he
fell dead.

The Amsterdam Telegraaf's Tirle-
mont, Belgium, correspondent con-
firms the report of the destruction
there last Thursday of Zeppelin air-
ship L-8, which was forced to make
a hurried descent owing to a derange-
ment of its motors.

Announcement was made in the
British Parliament yesterday that
Germans under 17 and over 55, and
Austro-Hungarians under 18 and
over 50 are now permitted to return
to their respective countries under ar-
rangements just made.

AVIATORS VISIT OSTEND.

**Bombs Are Dropped on Military and
Naval Establishments.**

LONDON, March 9.—The following
announcement was made last night by
the Official Press Bureau:

"Wing Commander Longmore re-
ports that royal naval aviators on
Sunday afternoon carried out an
aerial attack on Ostend. Six aero-
planes started, but two returned.
Four machines reached Ostend and
dropped eleven bombs on the sub-
marine repair bases of the German
station and four more on the mili-
tary repair base of the German sta-
tion and four more on the military
headquarters of Kursaal. It is re-
ported that considerable damage was
done. All the machines and pilots
have returned safely."

The Admiralty states that the two
machines which returned before the
raid was fairly launched did so be-
cause the petrol in their tanks was
found to be freezing.

No German submarines were seen
in the basin at Ostend, adds the
statement.

JEWS NEED NOT FEAR.

**Turks Exercising "Traditional Tol-
erance," Says Bernstorff.**

WASHINGTON, March 9. — Count
Bernstorff, German Ambassador here,
issued a statement yesterday assur-
ing Jews of the efforts on the part
of the German Ambassador at Constan-
tinople to prevent anti-Jewish agita-
tion. Among other remarkable things
he says:

"The Government in Constanti-
nople, now, since the outbreak of war,
strictly adhered to its traditional to-
lerant attitude toward all religions

MORE FORTS ARE GON

Three Turkish Strongholds Sil-
enced by Allies.

**Several British and French Batt-
ships Are Hit by Shells From 1
Land Batteries, But Little Da-
mage Is Done—Turks Are Mak-
ing a Terrific Resistance — Que-
en Elizabeth Is Hit Three Times.**

LONDON, March 9.—The Brit-
ish and French fleets have batter-
ed their way a step nearer to Constan-
tinople. More Turkish forts on the
Asiatic side have been silenced,
according to a statement by the Brit-
ish Admiralty, but the Turks are mak-
ing a terrific resistance with the shells
from their German-made guns.

From the number of ships engaged
and the size and range of the guns,
the battle of the Dardanelles is un-
like anything in history, according to
naval experts. At 21,000 yards the
battleship Queen Elizabeth of the
British squadron, assisted by small
ships, is still hurling shells across the
Gallipoli Peninsula into the Turk-
ish strongholds on the Asiatic shore. The
Admiralty statement carries the op-
erations through Sunday and ad-
mits that the majority of the ships in
the straits, both French and British,
were struck. None was sunk and
there were no casualties.

The Turkish forts Rumili, Med-
jidieh, Tabia and Hamidieh-I-Tab
fringing the Asiatic shore line, which
previously had withstood the bom-
bardment, were silenced, as was the
Mount Dardanus battery further
south.

Aeroplanes taking wing from the
decks of the besieging craft are play-
ing a signal part in the operation.
One British machine became unma-
nageable and dove into the sea, a
British machine was hit by the Turks
and another was hit by the Turks.

The British Admiralty last night
made public the following statement:
"The operations against the Dardanelles
are progressing in fine weather.
Vice-Admiral Sackville Carden reports that on March 6 the
battleship Queen Elizabeth, supported
by the battleships Agamemnon and Ocean,
began an attack on the forts Hamidieh-I-Tabia and
Hamidieh III, which are marked on the
Admiralty map as forts U and V,
indirect fire across the Gallipoli Peninsula,
firing at 21,000 yards."

"These forts are armed as follows:
Fort U, two 14-inch guns and sev-
eral 9.4 guns; fort V, two 14-inch, one
9.4, one 8.2 and four 4.9-inch guns."

"The Queen Elizabeth was replied to
by howitzers and field guns, a
three shells from the field guns struck
her, without, however, causing a
damage."

"Meanwhile, inside the straits, the
Vengeance, Albion, Majestic and
Prince George and the French bat-
tleships Suffren fired on Souain de
and Mount Dardanus batteries, marked
F and E on the Admiralty map, and
were fired on by a number of
concealed guns."

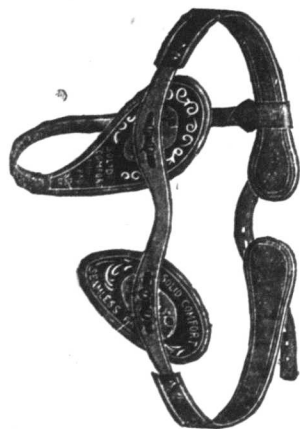

"Fort Rumili Medjidieh Tabia
marked J on the Admiralty map,
which had been attacked on the pre-
vious day, opened fire and was en-
gaged and hit by 12-inch shells."

"On the 7th of March the weather
continued calm and fine, four French
battleships — the Gaulois, Char-
magne, Bouvet and Suffren — entered
the straits to cover the direct bom-
bardment of the defences of the nar-
rows by the Agamemnon and Lo-

Maj.-Gen. Hugh L. Scott, chief of staff of the U. S. army, left Washington yesterday for Bluff, Utah, to take charge of the Government operations in connection with the Piute Indian uprising there.

The Brockville presbytery has nominated Rev. Hugh Cameron of Morrisburg as moderator of the Ottawa and Montreal Synod, and Rev. Dr. Scrimger of the Montreal Presbyterian College as moderator of the general assembly.

FRIDAY.

Mrs. Helen Lee, aged 60, a widow, fell down her cellar steps yesterday and broke her neck. She was dead when picked up.

Philip Geister and Mrs. Amelia Lavery were married in Lyons, N.Y., Thursday afternoon. The groom is 82 and the bride 60.

Followers of Manuel Zapata have looted the town of Coyoacan, in the State of Mexico. Some women and children were killed.

Dceslaw Gaczewski, 20 years old, a student at Lima (N.Y.) Seminary, was arraigned yesterday accused of the robbery at the bank of Lima, when nearly \$10,000 was stolen by a masked man.

Tom Shiyen, president of the Chinese Merchants' Association of New York, and known as the Mayor of New York's Chinatown, was sentenced yesterday to five years for manufacturing opium.

A copy of The North German Gazette received in Berne, Switzerland, contains seven different rations for feeding horses to aid the people in finding a satisfactory feed that does not contain oats.

As the result of being bitten by a dog, which it is claimed was suffering from hydrophobia, A. Cook, J. Gingrich and Cyrus Christner, of Berlin, Ont., are taking the Pasteur treatment in Toronto.

With full military honors, the bodies of the two soldier victims of Thursday night's deplorable accident in Galt were conveyed to the Grand Trunk station last evening, for their journey to Dundas and Galt.

SUNDAY.

The reserve non-commissioned officers of four classes were called to join the Italian colors Saturday.

Gen. Antonio Xavier Correa Barreto has been proclaimed President of the Republic of Northern Portugal by a congress of Democrats, who have been in session at Lamego.

A despatch from Constantinople says that a British cruiser appeared Friday before Dikell, off Myliten (off the coast of Asia Minor) and fired eight shots without result.

William Maund, traveling auditor for the T. & N. O. Railway, has received the appointment of secretary and treasurer of the T. & N. O. Commission, succeeding the late A. J. McGee.

A herd of prize cattle valued at \$40,000, which had been hopelessly infected with the foot and mouth disease, was shot Saturday on the farm of Ephraim T. Gill, at Haddonfield, New Jersey.

Frederick Little, aged 40, while working in the Beaverton flour mills, met with an accident from which he died Saturday. He was removing the belt from the elevator and was caught in one of the large wheels.

Four men were shot and killed and five others seriously wounded in Brunswick, Ga., Saturday by Monroe Phillips, a lumberman, who fired at random on the street. Phillips himself was killed by a policeman.

An order-in-council has been passed to extend till six months after the close of the war, the time within which Chinese who have left the country, or who may leave up to Aug. 1 next, may re-enter freely, according to the Immigration Act.

TUESDAY.

Montreal's City Council yesterday

Turks Exercising "Traditional Tolerance," Says Bernstorff.

WASHINGTON, March 9. — Count Bernstorff, German Ambassador here, issued a statement yesterday assuring Jews of the efforts on the part of the German Ambassador at Constantinople to prevent anti-Jewish agitation. Among other remarkable things he says:

"The Government in Constantinople, and, since the outbreak of war, strictly adhered to its traditional tolerant attitude toward all religions and there has never been an anti-Jewish or anti-Zionistic feeling in Constantinople. The political unrest, which for some time disturbed the Jewish population of Palestine, had been caused by the over-zealous attitude of local Turkish authorities.

"But, luckily, they have in no place been followed by excesses which could not be entirely repaired. The expulsion of several thousands of Jews from Palestine has also, without the permission from Constantinople, been ordered by local military authorities, who did not wish to allow Jews of foreign nationality to remain there."

Dresden Is In Hiding.

LONDON, March 9.—A despatch to The Times from Santiago, Chile, reports the activity of German steamers with coal cargoes in South American waters. The correspondent considers that this activity supports the reports of the proximity of German cruisers in these waters. He says there are persistent rumors that the cruiser Dresden is hiding in one of the inlets in Southern Chile. He adds that the Chilean Government is taking every precaution to preserve its neutrality.

To Exchange Disabled Officers.

BERNE, Switzerland, March 9.—It is stated here that France and Germany hereafter will exchange captured army officers who have been injured so severely as to be incapacitated for further military service. Heretofore only privates have been exchanged. The inclusion of officers in this arrangement is believed to be due to the initiative of Prince Maximilian von Baden, who interceded with Emperor William on behalf of the officers.

Hungarian For Foreign Secretary.

LONDON, March 9. — A despatch from Amsterdam to the Exchange Telegraph Co. says that according to Vienna telegrams Count Stephan Tisza, the Hungarian Premier, will soon be appointed Austro-Hungarian Foreign Secretary. The despatches further add that the count will be given the title of Imperial Chancellor, and will be vested with powers similar to those held by the German Imperial Chancellor.

W. CLARK, Limited, Montreal

and Mount Dardanus batteries, marked F and E on the Admiralty map, and were fired on by a number of concealed guns.

"Fort Rumili Medjidieh Tabia, marked J on the Admiralty maps, which had been attacked on the previous day, opened fire and was engaged and hit by 12-inch shells.

"On the 7th of March the weather continued calm and fine, four French battleships — the Gaulois, Charlemagne, Bouvet and Suffren—entered the straits to cover the direct bombardment of the defences of the narrows by the Agamemnon and Lord Nelson. The French ships engaged the Mount Dardanus battery and various concealed guns, silencing the former. The Agamemnon and the Lord Nelson then advanced and engaged the forts at the narrows at from 14,000 down to 12,000 yards by direct fire.

"Forts Rumili Medjidieh Tabia, marked J, and Hamilieh-I-Tabia, marked U, both were silenced after a heavy bombardment. Explosions occurred in both forts. Fort L has not fired since the explosion on the fifth.

"The Gaulois, Agamemnon and Lord Nelson were each struck three times, but the damage done was not serious. The Lord Nelson had three men slightly wounded.

"While these operations were in progress the British light cruiser Dublin continued to watch the Bulair Isthmus. She was fired at by four-inch guns and struck three or four times.

"Owing to the importance of locating concealed guns the seaplanes had to fly very low at times.

"On the 4th instant a seaplane pilot, Flight Lieut. Garnet and Observer Lieut.-Commander Williamson became unstable and fell into the sea. Both officers were injured. Flight Lieut. Douglas, reconnoitering at close quarters in another seaplane, was wounded, but returned safely.

"On the 5th seaplane No. 172, Pilot Flight Lieut. Bromet, with Lieut. Brown, was hit 20 times, and seaplane No. 7, Pilot Flight Lieut. Hershaw, with Petty Officer Merchant, was struck eight times in locating concealed positions.

Vice-Admiral Peirse, who is bombarding Smyrna, reports that several positions there were engaged by the ship at from 7,000 to 8,000 yards. The batteries replied vigorously, but after one hour's firing all were silenced. In the afternoon the ships steamed into a close range and engaged the Paleo Tabia battery and the other batteries on the hill. The fire was continued until all were put out of action.

Dynamite Under Bridge.

KINGSTON, Ont., March 9.—Seven sticks of dynamite were found yesterday afternoon secreted under some planking over the railway crossing of the C.P.R. and G.T.R. at Cataraqui street. Whether it was placed there to do harm is not known. The police are working on the case. A lad who had dynamite in his pocket is being detained. He says he found a stick on Princess street.

Italy and Austria In Conference.

BERLIN, March 9.—(Via London) It is announced in diplomatic quarters that a decided relaxation of tension in the Austro-Italian situation is noticeable. This is attributable probably to the initiation of direct negotiations between the two countries in response to the Austrian overtures.

How far the negotiations have progressed and whether tangible results have been obtained, has not been learned, but it is believed improbable in diplomatic circles that any decisive result has been reached.

ORE FORTS ARE GONE

Three Turkish Strongholds Silenced by Allies.

Several British and French Battleships are Hit by Shells From the Land Batteries, But Little Damage Is Done—Turks are Making a Terrific Resistance—Queen Elizabeth Is Hit Three Times.

LONDON, March 9.—The British and French fleets have battered their way a step nearer to Constantinople. More Turkish forts on the Asiatic side have been silenced, according to a statement by the British Admiralty, but the Turks are making terrific resistance with the shells from their German-made guns. From the number of ships engaged and the size and range of the guns, the battle of the Dardanelles is unlike anything in history, according to naval experts. At 21,000 yards the huge battleship Queen Elizabeth of the British squadron, assisted by smaller ships, is still hurling shells across the Helles Peninsula into the Turkish strongholds on the Asiatic shore. The Admiralty statement carries the operations through Sunday and admits that the majority of the ships inside the straits, both French and British, were struck. None was sunk and there were no casualties. The Turkish forts Rumili, Medjidieh, Tabia and Hamidieh-I-Tabia, along the Asiatic shore line, which previously had withstood the bombardment, were silenced, as was the Munt Dardanus battery further inland. Aeroplanes taking wing from the decks of the besieging craft are playing a signal part in the operations. A British machine became unmanageable and dove into the sea, and another was hit by the Turks 28 times. The British Admiralty last night de public the following statement: "The operations against the Dardanelles are progressing in fine weather. Vice-Admiral Sackville Hamilton reports that on March 6 the battleship Queen Elizabeth, supported by the battleships Agamemnon and Ocean, began an attack on the Hamidieh-I-Tabia and Hamidieh III, which are marked on the Admiralty map as forts U and V, by direct fire across the Gallipoli Peninsula, firing at 21,000 yards. "These forts are armed as follows: Fort U, two 14-inch guns and seven 6-inch guns; fort V, two 14-inch, one 8.2 and four 4.9-inch guns. "The Queen Elizabeth was replied by howitzers and field guns, and her shells from the field guns struck without, however, causing any damage. "Meanwhile, inside the straits, the Argentine, Albion, Majestic and George and the French battleships Suffren fired on Souain Dardanelles from the Munt Dardanus batteries, marked F and E on the Admiralty map, and were fired on by a number of concealed guns. "Fort Rumili Medjidieh Tabia, marked J on the Admiralty map, which had been attacked on the previous day, opened fire and was engaged and hit by 12-inch shells. "On the 7th of March the weather continued calm and fine, four French battleships—the Gaulois, Charleagne, Bouvet and Suffren—entered the straits to cover the direct bombardment of the defences of the narrows by the Agamemnon and Lord son. The French ships engaged

SLAVS IN ASCENDANT

Tide of Battle in East Turning in Their Favor.

Right Wing of Eschhorn's Army Has Been Driven Back at Augustowo and Gen. von Hindenburg Is Attacking Violently at Another Point to Conceal Failure in the Northeast.

LONDON, March 9.—In the north and south the Russians are now establishing an ascendancy. They have driven the right wing of Eschhorn's army, which recently attempted to cross the Niemen above Grodno, back towards the wide marshy clearing outside the Augustowo forest, never permitting the German rearguard to halt. The Russian advance here reaches a remarkable pace, considering the miserable condition of the ground. At the Ossowiec fortress the Russian artillery silenced two German heavy batteries Saturday, and they continue shelling the Lyck road to keep back German reinforcements. The number of Germans who surrendered, especially among the fresh conscripts, far exceed anything experienced in the earlier stages of the war. Of the first consignment, numbering 700 of the total of 10,000 prisoners taken during the Przrasnysz battles, recently brought from the first field base to the railroad, scarcely fifty could walk steadily. Von Hindenburg is again striving to distract attention from this tragic end of his northeastern campaign by directing sharp infantry attacks on the six-mile front above the left bank of the Pilica, in the direction of the Rawa road. The sharp battle in this district of Central Poland has now lasted three days. It evidently aims at preventing the Russian outer line in the region southwest of Warsaw from sparing forces to go elsewhere. From our indications the Germans fear a new strong offensive on the Nieda and Dunajec rivers against the armies protecting Cracow. The German staff is still striving to avert the final collapse of the Austrian campaign. It has sent a fresh batch of new German conscripts, mostly aged about 18, into northern Hungary. With the remainder of the Austrians they are moving in great numbers on the Galician slopes of the mountains and in the broken hills between the sources of the San and Dneister. Their right wing was severely cut up Saturday attempting to cross the Dneister eastward. Although a snowstorm impeded operations in the Champagne country, the French troops gained about a third of a mile of trenches in the Perthes region and about three hundred feet of ground on the ridge north of Mesnil. The Germans recovered some of the trenches that they lost on Sunday between Le Mesnil and Beausejour, but their attempt to retake a wood west of Perthes, captured from them on Sunday, was defeated and a counter-offensive enabled the French soldiers to gain some ground to the north and the east of this point and to take some prisoners. The French also gained a footing in a German trench in the Boise Bruie, forest of Apremont, region of St. Mihiel and a great quantity of war materials fell into their hands.

ON A DIFFERENT BASIS

Submarine "Pirates" May Be Treated as Criminals.

Official Statement Issued in Britain Is to the Effect That Pending an Inquiry the Crew of the U-8 Will Not Be Accorded Distinctions of Rank Nor Allowed to Mix With Other Prisoners.

LONDON, March 9.—"The Board of the Admiralty does not feel justified in extending honorable treatment to the twenty-nine officers and men of the sunken German submarine U-8, on the ground that they were guilty of attacking and sinking unarmed merchantmen." This significant statement was issued last night by the Official Press Bureau. The statement fails to make clear exactly what treatment will be extended to the captured Germans. There has been a persistent demand throughout Britain that they be handled as pirates. Lord Charles Beresford recently asked the Prime Minister in the House of Commons whether the crews of German submarines which sank unarmed merchant ship without warning would be treated as pirates and tried for murder. Mr. Asquith replied that the Government had the matter under advisement, and was not then prepared to announce its policy. The statement refers to the generous treatment accorded German officers and men saved by the British, numbering upward of one thousand, and then says with reference to the U-8: "This vessel had been operating in the Straits of Dover and in the English Channel, and there is a strong probability that she had been guilty of attacking and sinking unarmed merchantmen and firing torpedoes at ships carrying non-combatants, neutrals and women. In particular, the steamer Oriole is missing, and there is grave reason to fear that she has been sunk with all hands—twenty. "There is, of course, great difficulty in bringing home particular crimes to any individual German submarine, and it may be that the evidence necessary to establish conviction will not be obtained until after the conclusion of peace. Meantime, persons against whom such charges are pending must be subject to a special restriction, and cannot be accorded the distinction of their rank or be allowed to mingle with other prisoners of war."

NAVAL SHUFFLE LIKELY.

German War Chiefs, Have Been Discussing Future On the Sea. LONDON, March 9.—A Daily Express despatch dated Amsterdam, Sunday, says: "Before long there will be a general shuffle of positions in the higher command of the German navy. Admiral von Tirpitz and his master are not satisfied with the doings of Admiral von Ingenohl, commander-in-chief of the battle fleet. They ascribe to his lack of foresight the loss of many German ships. "What is left for Germany at sea? That was the question discussed recently at a naval war council in Berlin to which Germany's best admirals had been summoned. No communication was made to the press regarding the outcome of the council, but it is understood from a trustworthy

STREETS OF CHRISTIANIA. The Most Tastefully Designed of Any Capital in Europe. Christiania is probably the most tastefully laid out capital of any state in Europe, Paris itself not excepted. It owes its foundation entirely to King Christian IV. of Denmark, from whom it takes its name, who in or about the year 1623 decided to erect for himself a new capital on the opposite side of the river to Oslo. The whole of the main streets of the city run at right angles and are extremely wide. Indeed, it would hardly be an exaggeration to call them squares rather than streets. For the most part the architecture is rather heavy in design, but the clear air that comes from the fjords tends to give the whole place a tone of lightness that it would otherwise lack. The river Aker contains a wonderful series of waterfalls in the upper courses some little distance from the city, where practically the whole of the necessary power for the ever growing manufacturing quarter of the Norwegian capital is generated. This

Mount Dardanus batteries, marked F and E on the Admiralty map, and were fired on by a number of concealed guns.

"Fort Rumili Medjidieh Tabia, marked J on the Admiralty maps, which had been attacked on the previous day, opened fire and was engaged and hit by 12-inch shells.

"On the 7th of March the weather continued calm and fine, four French battleships—the Gaulois, Charleagne, Bouvet and Suffren—entered the straits to cover the direct bombardment of the defences of the narrows by the Agamemnon and Lord Nelson. The French ships engaged the Mount Dardanus battery and various concealed guns, silencing the former. The Agamemnon and the Lord Nelson then advanced and engaged the forts at the narrows at a range of 14,000 down to 12,000 yards by direct fire.

"The Rumili Medjidieh Tabia, marked J, and Hamillieh-I-Tabia, marked U, both were silenced after heavy bombardment. Explosions occurred in both forts. Fort L has not been fired since the explosion on the 5th.

"The Gaulois, Agamemnon and Lord Nelson were each struck three times, but the damage done was not serious. The Lord Nelson had three men slightly wounded.

"While these operations were in progress the British light cruiser Dublin continued to watch the Bulair straits. She was fired at by four-inch guns and struck three or four times.

"Owing to the importance of locating concealed guns the seaplanes had to fly very low at times.

"On the 4th instant a seaplane pilot, Flight Lieut. Garnet and Observer Lieut.-Commander Williamson became unstable and fell into the sea. Both officers were injured. Flight Lieut. Douglas, reconnoitering at sea quarters in another seaplane, was wounded, but returned safely.

"On the 5th seaplane No. 172, Pilot Flight Lieut. Bromet, with Lieut. Brown, was hit 20 times, and seaplane No. 7, Pilot Flight Lieut. Heron, with Petty Officer Merchant, as struck eight times in locating concealed positions.

Vice-Admiral Peirse, who is bombarding Smyrna, reports that several positions there were engaged by the ships at from 7,000 to 8,000 yards. The batteries replied vigorously, but after one hour's firing all were silenced. In the afternoon the ships steamed into a close range and engaged the alio Tabia battery and the other batteries on the hill. The fire was continued until all were put out of action.

Dynamite Under Bridge.

KINGSTON, Ont., March 9.—Seven sticks of dynamite were found yesterday afternoon secreted under some banking over the railway crossing at the C.P.R. and G.T.R. at Cataract street. Whether it was placed there to do harm is not known. The police are working on the case. A man who had dynamite in his pocket being detained. He says he found stick on Princess street.

Italy and Austria In Conference.

BERLIN, March 9.—(Via London) is announced in diplomatic quarters that a decided relaxation of tension at the Austro-Italian situation is noticeable. This is attributable probably to the initiation of direct negotiations between the two countries in response to the Austrian overtures.

How far the negotiations have progressed and whether tangible results have been obtained, has not been learned, but it is believed improbable that diplomatic circles that any decisive result has been reached.

education them on Sunday, was defeated and a counter-offensive enabled the French soldiers to gain some ground to the north and the east of this point and to take some prisoners.

The French also gained a footing in a German trench in the Boise Bruie, forest of Apremont, region of St. Mihiel and a great quantity of war materials fell into their hands.

SUFFRAGE BILL DEBATED.

Measure to Extend Franchise to Married Women Up In Legislature.

TORONTO, March 9.—The second reading of the bill to extend the municipal franchise to married women was discussed. In the absence, through indisposition, of Mr. J. C. Elliott (W. Middlesex), in whose name the bill stood, Mr. J. C. Tolmie (Windsor) moved the second reading. Hon. Mr. Lucas, the Attorney-General, opposed the bill. Mr. Sam Carter (S. Wellington) supported the bill, and Mr. Donovan (Brockville) opposed it. Mr. Rowell was the last speaker, and after addressing the House for a short while moved an adjournment which was agreed to.

Geo. H. Gooderham introduced a measure yesterday to make owners of heavy motor trucks and wagons liable for rutted roads, and giving municipal corporations power to recover the amount of the damage from them.

CANADIANS TOOK TRENCH?

Correspondent Reports a Gallant Exploit Near Lombaertzyde.

LONDON, March 9.—A despatch to The London Daily Telegraph from Boulogne states that recently a company of Canadians, after a gallant fight against enormous odds, captured a trench from the enemy near Lombaertzyde. The enemy's losses were heavy. The Canadians had no casualties.

This may have reference to the exploit of a section of the Princess Patricia's, officially reported.

Bengrove Is Sunk.

ILFRACOMBE, Eng., March 9.—The British steamer Bengrove, carrying coal, was seen in distress sounding her siren five miles off this shore at 1.30 p.m. Sunday. Forty minutes later the ship's bow rose from the water and she sank by the stern. Thousands of people stood on the shore and watched her go down.

The steamer Paignton of Liverpool rescued the crew of thirty-three.

It is thought she was struck by torpedo.

Government's Copper Is Safe.

LONDON, March 9.—No belligerent Government has a right to requisition a cargo belonging to a neutral Government, according to a decree given out by the prize court yesterday.

The question at issue arose over 1,000 tons of copper sent from the United States to Gothenburg, Sweden, and destined for the use of contractors to the Swedish Government.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

NATIONAL BANK OF COMMERCE, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

"Before there will be a general shuffle of positions in the higher command of the German navy. Admiral von Tirpitz and his master are not satisfied with the doings of Admiral von Ingenohl, commander-in-chief of the battle fleet. They ascribe to his lack of foresight the loss of many German ships.

"What is left for Germany at sea? That was the question discussed recently at a naval war council in Berlin to which Germany's best admirals had been summoned. No communication was made to the press regarding the outcome of the council, but it is understood from a trustworthy source that Admiral von Ingenohl's policy of seeking battle was sternly condemned by the admiral's opponents.

It may be taken for granted that the German fleet will never again attack British ships in anything like an equal fight, but will remain hidden until peace is declared and then Germany, with what is left of it, will endeavor to build the largest fleet that ever existed and hopes then to challenge the British fleet within fifteen or twenty years.

Would Cut Down Speeches.

OTTAWA, March 9.—H. H. Stevens, of Vancouver, wants to cut down the speeches of members of Parliament to reasonable limits. Cases have been known when members have held the floor for hours at a time, and Mr. Stevens wants to compel them to be brief.

He has given notice that he will move for the appointment of a committee of the House to consider and report on the question of limiting all speeches to 45 minutes in regular session, and 20 minutes when the House is in committee of the whole, excepting the mover of a bill or resolution and the reply thereto, or a Minister of the crown and members replying to them.

Huge Auxiliary Fleet Used.

WASHINGTON, March 9.—Some idea of the size of the auxiliary fleet Great Britain is using to move and sustain her armies in the field may be learned from a report on shipping condition from American Consul Lathrop at Cardiff, Wales.

Fifteen hundred British vessels, he reports, aggregating more than 3,500,000 tons, have been taken over by the British Admiralty on time charters, the Government taking all responsibility and agreeing to return the vessels as received.

Ironing Shirt Waists.

To give a soft finish to shirt waists and delicate fabrics when laundering them use corn starch. Take one tablespoonful of corn starch, mix it with a little cold water, stir into one quart of boiling water and boil two minutes. A piece of French gloss the size of a bean adds to smoothness. Dilute with cold water to desired consistency.

Forest Reserves.

The Dominion Government has established forest reserves in Manitoba, Saskatchewan, Alberta and the railway belt of British Columbia, totaling 28,027,424 acres, including the Dominion parks, which have the status of forest reserves.

Classifying It.

Mr. Rockleigh—I bought this picture in London. Do you think it's a genuine Titian?

Expert—No, indeed. I should rather think it is a repetition.

A Compromise Promise.

Father—Will you promise never to be such a naughty boy again if I do not punish you?

Son—Yes, father, if you will promise not to punish me if I am.

city run at right angles and are extremely wide. Indeed, it would hardly be an exaggeration to call them squares rather than streets. For the most part the architecture is rather heavy in design, but the clear air that comes from the fountains tends to give the whole place a tone of lightness that it would otherwise lack.

The river Aker contains a wonderful series of waterfalls in the upper courses some little distance from the city, where practically the whole of the necessary power for the ever growing manufacturing quarter of the Norwegian capital is generated. This quarter is rather rigorously restricted to the suburb of Sagene, on the north side of the city, since town planning is something more than a mere name in Norway.

The royal palace, which was built by Christian IV., is a handsome building of rather unattractive architecture.—Manchester Guardian.

PREDICTS THE TIDES.

One of Uncle Sam's Machines That Does Wonderful Work.

A machine known as the United States tide predicting machine No. 2 and which is in daily operation in the United States geodetic survey at Washington, makes mathematical calculations which would otherwise require 100 persons to do.

Its work is nothing less than the predicting of the times and heights of high and low tides a year in advance. Its mechanism is of brass and steel, its house a huge mahogany and glass case and its tender one observer, who turns a crank and copies off on paper the reading of several dials and later removes from the machine a roll of paper on which is plotted the tidal curve for the particular spot along the coast the tides of which have been predicted.

Every year the United States issues a book of tide tables, primarily for the use of its navy and, secondly, for the use of all who go down to the sea in ships. This book of tide tables gives the time to the minute and the height of the nearest tenth of a foot of every high and low tide during the year for seventy of the world seaports, and by means of an auxiliary table the same information for 3,000 other places.—Scientific American.

Useful Wives!

Equal suffrage has not yet penetrated Africa's jungles. A husband will send two of his wives out to plant and care for the cassava farm. Two more will be appointed to look after the rice farm, to plant, attend it, drive off the rice birds and animals, and finally to cut and harvest the crop. Two more will be delegated to the jungle to chop and bring home firewood. Another will be commissioned to carry water for the family. Another will do the cooking. Still another will shine her husband's sword, light his pipe and bring it to him, while he sits in the kitchen and talks any kind of palaver that his men friends care to quibble about. The husband works on the principle of "to every woman her work."—Christian Herald.

Are Your Hands Tied?

by a chronic disease common to woman-kind? You feel dull—headache? Back-ache, pains here and there—dizziness or perhaps hot flashes? There's nothing you can accomplish—nothing you can enjoy! There's no good reason for it—because you can find permanent relief in

DR. PIERCE'S Favorite Prescription

Mrs. Fannie H. Brent, of Bryant, Nelson Co., Va., writes: "I believe I had every pain and ache a woman could have, my back was weak, and I suffered with nervousness and could not sleep at night. Suffered with soreness in my right hip, and every month would have spells and have to stay in bed. I have taken eight bottles of your 'Favorite Prescription' and one vial of your 'Pleasant Pellets'. Can now do my work for six in family, and feel like a new woman. I think it is the best medicine in the world for women. I recommend it to all my friends and many of them have been greatly benefited by it."

Dr. PIERCE'S PLEASANT PELLETS
Relieve Liver Ills!

JAPAN'S FAT WRESTLERS.

Outside of the Arena Eating is Their Most Important Task.

The most envied men in Japan are the wrestlers, who are fat and bulky. The first requisite of a Japanese wrestler is that he be fat. Their stomachs are their proudest possessions. The fatter the man the more money they will bet on him, even though a bedslat can throw him clear out of the ring. As a fat wrestler walks down the street a crowd gathers around him, hoping that he will turn into some restaurant. If he does they gather in the doorway to watch him eat. They would rather hear a Japanese wrestler eat that go to a three ring. A wrestler never disappoints them—he plows through astounding quantities of food, turning everything under except a few radish skins and turnip tops. It's unbelievable how much noise they make when eating, by smacking their lips, sucking up their tea with the open exhaust and picking their teeth with the cutout on.

The champion eaters of them all—the wrestlers—have long hair, but instead of letting it hang down on their shoulders, as one would naturally expect, they do it up in knots until they look like a gigantic kewpie. Whenever you see a man in Japan going around with a large sized walnut on his head, you may know that he follows the ancient and honorable profession of wrestling. Their wrestling consists of the men standing upright in the ring, making a rush at each other and trying to push each other out. Every time two wrestlers come together they give a prodigious grunt. When one of them finally succeeds in pushing the other out the crowd bursts forth into mighty applause, while the victor modestly pats his stomach to show where the praise is due.—Homer Croy in Leslie's.

COLOSSAL CANOPUS.

If It Were Our Sun It Would Take Over Eight Hours to Rise.

Of all the twenty first magnitude stars the inherent glory of Rigel and Canopus is the greatest. Only two are farther than they, while the other sixteen are very much nearer.

Estimates give the light of Rigel as equal to that of 22,000 suns and that of Canopus as 55,000.

Assuming that their general surface brilliancy is the same as that of the sun and recalling that Rigel has at least 22,000 and Canopus 55,000 times

CURIOUS WAYS IN JAPAN.

One Thing In Particular That Pained a Visitor From Missouri.

I knew before I got here that Japan was queer, but I had no idea that everything was backward. I can't get used to sitting on the floor and sleeping with a tomato can with a napkin around it for a pillow. The easiest way to figure out how the Japanese would do a thing is to think what would be exactly backward in Missouri. When two Japanese meet they bow and bow, giving their heads short jerks as if trying to get salt water out of their eyes. When they separate they tip their hats. When they come into a store they tip their hats. When they buy a ticket they tip their hats. Their elbows are always bent toward their hats.

Japanese never kiss. This pleasant pastime has not yet been imported into cherry blossom land. It is only recently that a few of the Japanese have learned to shake hands. We travelers are hoping that they will take up other great American institutions. Japanese look upon kissing as being low and vulgar, believing that a few moments spent in bowing is much better. The girls feel that way about it, too—they say.

When an ardent young Japanese suitor slips his arm around the girl's waist and whispers into her shell-like ear that she is the only woman who has ever understood him and when she looks up confidingly into his eyes and breathes "You are so strong!" he does not clasp her to his bosom in an ecstasy of joy and plant a delirious kiss on her trembling lips—no, instead of that he gets up and bows politely and thanks her in a few courteous phrases.

One cannot help feeling sorry for them when thinking how many pleasant evenings they miss. From my limited experience I wouldn't give a good old fashioned Missouri kiss for ten minutes of bows.—Homer Croy in Leslie's.

War Brings Mice.

One curious result of a foreign invasion is recorded in the letters of Prince Metternich to Mme. de Lieven. From Judenburg, a small town in Styria, the prince writes: "The burgomaster here has been expatiating to me on the large amount of

THE MARKETS

CHICAGO, March 8.—Wheat jumped as much as 8½c in value today owing to urgent buying ascribed to the war crisis regarding Italy and Greece, and to the belief that domestic farm reserves would prove small. The Washington figures on farm reserves, as made public after the close of trading, indicated that the percentage of the United States crop still in first hands was the least which had been reported at any corresponding time in more than seven years. The market closed firm, 3¼c to 3½c above Saturday. Other net advances were corn ¼c to ½c, oats 1¼c to 1½c, and provisions 12½c to 30c.

GRAIN AND PRODUCE.

TORONTO, March 8.—Quotations on the Board of Trade are as follows:

Manitoba wheat—No. 1 northern, \$1.53, lake ports; No. 2, \$1.51; No. 3, \$1.48; ¼c per bushel more on track, Goderich.

Manitoba oats—No. 2 C.W., 67½c; No. 3 C.W., 64½c, track, bay ports; No. 1 feed, 64c; sample oats, 63½c.

Ontario oats—Outside, 58c to 62c.

Ontario wheat—No. 2, per car lot, \$1.35, outside.

American corn—No. 3 yellow, all-rail shipments, Toronto freights, 80½c.

Peas—No. 2, \$2 to \$2.05, car lots, outside, nominal.

Rye—No. 2, \$1.23 to \$1.25.

Barley—Good malting barley, outside, 58c to 58c.

Roller oats—Car lots, per bag of 90 lbs., \$3.55; in smaller lots, \$3.75, Windsor to Montreal.

Millfeed—Car lots, per ton: Bran, \$28; shorts, \$30; middlings, \$35; good feed flour, \$40 to \$44; mixed cars, \$1 more.

Buckwheat—\$3c to \$5c, car lots, outside.

Manitoba flour—First patents, \$7.70 in jute bags; second patents, \$7.20 in jute bags; strong bakers', \$7; in cotton bags, 10c more.

Ontario flour—Winter, 90 per cent. patents, \$5.85 to \$6, seaboard, in bulk; \$5.95 to \$6.10, bags included, Toronto freights.

WINNIPEG GRAIN MARKET.

WINNIPEG, March 8.—The wheat market was strong from the outset today, opening prices being ¼c to ½c higher, and previous to noon further advances occurred to the extent of 3¼c and 3½c on May and July over Saturday's close. The gain on the day was 3¼c to 5½c, July leading.

During the early part of the forenoon there was a fair volume of business in futures, the principal buying coming from exporting houses.

Cash demand for No. 3 northern wheat was good, and also for all grades of oats, but few offers were on the market. Exporters and millers were both buyers of cash grains.

Total inspections on Saturday were 300 cars, as against 247 last year, and in sight today 400 cars.

MONTREAL GRAIN MARKET.

MONTREAL, March 8.—The export business in grain continues to be quiet, there being practically no demand from foreign buyers today. In sympathy with the rise in prices for oats in the Winnipeg option market, a stronger feeling prevailed on spot, advancing ¼c to 1c per bushel, but there was no improvement in the demand for car lots. Ontario barley was 1c to 2c per bushel lower. Flour was unchanged. Millfeed firm. Butter is firm and unchanged. Eggs weak, 3c per dozen decline.

WHY, WHEN AND HOW THE SECOND ADVENT

"Billy" Sunday's Views Bet Than "Orthodoxy's."

Bible Views Long Buried Now Coming to Light—Erroneous Teachings of the Creeds—Reasonableness of Bible's Presentation Instead of World-Burning, Messiah's Kingdom Will Be Blessed

Norfolk, Va. Feb. 28.—Pastor Russell, addressing a large audience here to discuss Christ's Second Advent from the text, I go away, I come again to receive you (John 14:3). Billy Sunday saying that though Bill

teachings did come up to the Bible, nevertheless is far ahead of so-called "Orthodoxy" on this subject.

The Pastor agrees with Mr. Sunday in teaching that our Lord Jesus coming to establish a world-wide Empire which will bless all mankind with fullest opportunity to do right. But he disagrees with Mr. Sunday's theory that the billions who died during the past six thousand years ignorance of Christ will suffer to eternity because of that ignorance. Those billions include all who have never truly heard of Jesus, in heathen lands and at home where, according to Mr. Sunday, some were straight down to Hell by churches.

The Bible thought, the speaker declared, is altogether different—the dead are in neither Purgatory nor a fiery Hell, but in the Bible Hell the tomb; and that "all that are their graves shall hear the voice of the Son of God and come forth." "I saintly will come forth to glory with Christ in His Kingdom; others, to resurrection—a raising up out of death—by judgment.—John 28, 29, Revised Version.

Those who have not intelligently heard of Jesus and His salvation are not on trial now. Their death is penalty of Adam's sin, not of personal rejection of Jesus. It is to give them the opportunity of a judgment, during Christ's Millennial Reign they will be brought from the tomb. As all died through one man's disobedience, all will come forth to opportunity of everlasting life through the obedience of the other man—Christ. The resurrection of the dead is their only hope. (A 24:15.) In view of this the whole world are said to "sleep with their fathers."

"Orthodoxy Is Still Worse.

The speaker then showed that those styling themselves "Orthodox" are still further astray from the Bible. "Orthodoxy" declares that there will be no Millennium—no hope, any except the Elect few; that Jesus is coming to burn up the earth and its inhabitants. He quoted many Scriptures to refute this teaching. Both Catholic and Protestant creeds declare that at Christ's Second Coming the earth and its inhabitants will be consumed with literal fire. This leads to a literal interpretation of Peter's symbolic statement portraying

If It Were Our Sun It Would Take Over Eight Hours to Rise.

Of all the twenty first magnitude stars the inherent glory of Rigel and Canopus is the greatest. Only two are farther than they, while the other sixteen are very much nearer.

Estimates give the light of Rigel as equal to that of 22,000 suns and that of Canopus as 55,000.

Assuming that their general surface brilliancy is the same as that of the sun and recalling that Rigel has at least 22,000 and Canopus 55,000 times the light of the sun, the square root of these figures gives us Rigel's diameter as 150 and Canopus' 235 times that of the sun.

Whereas the sun's diameter, as seen in the sky, measures one-half a degree, Canopus', at the same distance, would measure 117½ degrees of the 180 that reach from horizon to horizon, and its disk would cover 55,225 times the sky area occupied by the sun. Canopus would be nearly eight hours in rising.

With such a globe brought so near, all life on the earth would instantly perish, seas would be converted into steam, and the very mountains would melt with fervent heat and flow like molten iron. Beside such facts our corner of the universe seems diminutive, dull and insignificant.

These two marvelous orbs have been found among a group of twenty to which they belong. Out of the million million stars known to exist only twenty, for aught we know, might yield similar specimens. Nothing proves that such worlds are rare.—Scientific American.

The Critic Scored.

"I have just sold that picture for \$2,000!" said the jubilant artist. "I congratulate you on your ability," replied the critic.

"Thank you. It makes a difference, doesn't it?"

"Makes a difference? I don't understand you."

"I mean that it makes a difference when a man succeeds. Up to this time you have never uttered a word of praise or encouragement to me. Two or three times you have made slighting references to my ability as a painter. Now that I have sold a picture for a good price you begin to see that I have artistic talent."

"Oh, I'm not congratulating you on your artistic talent, but on your ability as a salesman."—Chicago News.

Sir Galahad.

The most conspicuous of the Knights of the Round Table was Sir Galahad, the son of Launcelot and Elaine. The familiar words, "There Galahad sat, with manly face, yet maiden meekness in his face," sufficiently indicate the qualities for which the knight was famous—to wit, lion hearted courage combined with humility and meekness of spirit, the strength of the oak with the soft beauty of the lily.

Well Spoken.

Mother—You know what a party is, don't you, dear? Doris (aged four)—Yes, mamma. A party is where you go and stay a little while and pass your saucer back for some more and stay another little while and then go home.—Boston Transcript.

Children Cry FOR FLETCHER'S CASTORIA

...when thinking how many pleasant evenings they miss. From my limited experience I wouldn't give a good old fashioned Missouri kiss for ten minutes of bows.—Homer Croy in Leslie's.

War Brings Mice.

One curious result of a foreign invasion is recorded in the letters of Prince Metternich to Mme. de Lieven. From Judenburg, a small town in Styria, the prince writes: "The burgomaster here has been expatriating to me on the large amount of damage done by mice to farms in the surrounding district. On inquiring how long they had been afflicted in this way, I was told, 'Since the French were here.' 'Do you mean to tell me the French brought mice with them?' I asked. 'No,' replied the burgomaster; 'but they ate so much bread that they covered our fields with crumbs, and since then all the mice in Styria appeared to have settled here.'"

Real Excitement.

A city man who owing to a business deal was obliged to live for some time in a small railroad town frequently felt the need of excitement. Once when he was really depressed with the monotony of his life he saw a wildly excited crowd gathered on a vacant lot. Prominent citizens were there hopping up and down, gesticulating and shouting and he felt that the unexpected had happened and something was doing. He rushed to the lot and gasped out, "What's the matter?" "Matter!" shouted a rampant citizen. "Matter! Why, we are going to hive a swarm of bees!"

The Navel Orange.

The first we know of the navel orange, which is very valuable not only on account of its fine quality and taste, but also because of its being seedless, is of a single tree that was found growing on the northern shore of the Mediterranean Sea. This was about the year 1565. Grafts of this tree were taken to Spain by the Moors several hundred years ago, and from Spain the trees were carried to South America by the Spaniards.

Genial Greeting.

He—You were getting ready to go out, and I'm afraid my call is inopportune!

She—Really and truly, I would much rather stay here and talk with you than keep my engagement this afternoon!

He—I am delighted! But can the engagement be broken without inconvenience?

She—Oh, yes! The dentist won't mind!

A Descendant of Attila.

Although most present day descendants of the Huns are to be found in Bulgaria, the premier family of the Hungarian nobility—the Esterhazys—claim lineal descent from Attila; and the earliest Hungarian records to some extent bear out this claim. They certainly show no trace of this ancestry in their appearance, for Attila was physically as well as morally one of the most hideous characters in history, while the Esterhazys are a conspicuously handsome family.

Safety First.

Prospective Father-in-law—You've got some nerve to ask me for an advance payment of the dowry. I think you are a fortune hunter. The Count—Oh, no, monsieur; I am only what you Americans call a "safety first" crank.—Puck.

A good conscience is to the mind what health is to the body.—Addison.

MONTREAL, March 8.—The export business in grain continues to be quiet, there being practically no demand from foreign buyers today. In sympathy with the rise in prices for oats in the Winnipeg option market, a stronger feeling prevailed on spot, advancing ½ to 1¢ per bushel, but there was no improvement in the demand for car lots. Ontario barley was 1¢ to 2¢ per bushel lower. Flour was unchanged. Millfeed firm. Butter is firm and unchanged. Eggs weak, 3¢ per dozen decline.

CATTLE MARKETS

UNION STOCK YARDS.

TORONTO, March 8.—Receipts of live stock at the Union Yards were 2200 cattle, 519 hogs, 154 sheep and lambs and 91 calves.

Butchers' Cattle.

Choice heavy steers, \$7.50 to \$7.85, and one extra choice lot of 4 at \$8.15; good to choice, \$7.25 to \$7.50; good, \$7 to \$7.25; medium, \$6.60 to \$6.85; at \$6.25 to \$6.50; choice cows, \$5.75 to \$6; medium cows, \$5.25 to \$5.60; canners and cutters, \$4 to \$4.50; choice bulls at \$6.50 to \$6.75; medium bulls at \$5.25 to \$5.75.

Stockers and Feeders.

Feeders, 750 to 800 lbs., at \$6.25 to \$6.50; medium steers, same weight, \$6 to \$6.25; stockers, \$5.50 to \$6.

Milkers and Springers.

Moderate receipts of milkers and springers met a fair demand at steady prices ranging from \$50 to \$80, and an odd one now and again at \$85 and \$90. The bulk of sales being made between \$60 and \$75.

Veal Calves.

Choice veal calves sold at \$10 to \$11; good at \$8 to \$9.50; medium at \$7.50 to \$8; common at \$6 to \$7; eastern rough calves at \$4.50 to \$5.50.

Sheep and Lambs.

Sheep, ewes, sold at \$6 to \$7.50; rams, \$5 to \$5.50; lambs, \$8.50 to \$9.40.

Hogs.

Selects weighed off cars, \$8.15 to \$8.25; selects fed and watered, \$7.80.

MONTREAL LIVE STOCK.

MONTREAL, March 8.—At the Montreal stock yards, west end market, in sympathy with the Toronto prices, coupled with the continued small supplies coming forward of late, the tone of the market was stronger today and prices show an advance of 15c to 25c per cwt. There was also an increased demand for supplies from both packers and butchers owing to the fact that they allowed their stock of dressed beef to run down to a low level, consequently this also tended to add strength to the situation. Trade, however, was more active than it has been for the past few weeks. Sales of a few full loads of really choice steers were made at \$7.50 to \$7.75, and picked stock brought \$7.75 to \$8, but the bulk of trading was done in the lower grades with sales of full loads of good steers at \$7.15 to \$7.25 and medium at \$6 to \$6.50 per cwt.

Butchers' cattle, choice, \$7.65 to \$8; do., medium, \$6.25 to \$6.75; do., common, \$5 to \$5.75; canners, \$3.75 to \$5.00; butchers' cattle, choice cows, \$6.40 to \$6.75; do., medium, \$5.40 to \$6; do. bulls, \$5.75 to \$6.75; milkers, choice, each, \$70 to \$75; do. common and medium, each, \$60 to \$65; springers, \$50 to \$55; sheep, ewes, \$5.75 to \$6; bucks and culs, \$5.25 to \$5.50; lambs, \$9; hogs, off cars, \$8.50; calves, \$5 to \$15.

CHICAGO LIVE STOCK.

CHICAGO, March 8.—Cattle—Receipts, 17,000; market weak. Beeves, \$5.85 to \$7; cows and heifers, \$3.40 to \$7.80; calves, \$6.50 to \$10.

Hogs—Receipts, 26,000; market higher; light, \$6.70 to \$7; mixed, \$6.70 to \$7.05; heavy, \$6.45 to \$7; rough, \$6.45 to \$6.60; pigs, \$5.75 to \$6.75; bulk of sales, \$6.85 to \$6.95.

Sheep and Lambs—Receipts, 17,000; market weak; native, \$7 to \$7.50; yearlings, \$7.65 to \$8.75; lambs, native, \$7.50 to \$9.85.

Said he: "I simply can't exist."

It costs too much to eat.

If I was a conortionist

I might make both ends meet."

—Atlanta Constitution.

"Pa, what is an accomplished musician?"

"One who sings songs that nobody can understand."—Detroit Free Press.

War doth many phases show—

The grim and fierce and sad ones,

Breeding want and crime and woes

And poets—mostly bad ones.

—Cleveland Plain Dealer.

"Orthodoxy Is Still Worse.

The speaker then showed the those styling themselves "Orthodox" are still further astray from the B ble. "Orthodoxy" declares that they will be no Millennium—no hope for any except the Elect few; that Jest is coming to burn up the earth an its inhabitants. He quoted man Scriptures to refute this teaching; Both Catholic and Protestant creed declare that at Christ's Second Con ing the earth and its inhabitants wi be consumed with literal fire. Th leads to a literal interpretation of S Peter's symbolic statement portrayin the fire of anarchy which will destro present institutions and make way f Messiah's Kingdom.

They fall into this error because another formed during the Dar Ages; namely, that the only kingdo of God the world will see will be suc as it is now enjoying, while the va rious so-called kingdoms of God ar butchering each other. Each tries t justify its own selfish course, and a unite in saying that the civilized n tions are Christendom—Christ Kingdom.

This theory dates from 800 A.D since which time Catholics claim th the Church is reigning with Chris the Pope serving as the world king—vicegerent, or instead of Mes siah. Protestants generally, refusin the Pope as Christ's vicegerent, ar much confused when they attempt t explain the Kingdom for which the pray, "Thy Kingdom come," and th references in Revelation to its lastin a thousand years.

What Troubles Honest Preachers.

There are ministers who believe th Bible, yet are skeptical respectin Messiah's Kingdom. Properly enou they argue that if for eighteen cer turies Jesus has been a Spirit Bein at the Father's right hand, it woul be a retrogression for Him to retur to earth and sit on a gold and ivor throne.

These ministers have slipped a fei cogs in the Divine Plan of the Age; the Pastor holds. What they need t note in the Bible is that only Chris and His Church are promised a shar in the Heavenly blessings—that th Divine arrangement for the world i an earthly Paradise and human pei fection in the Divine likeness; tha the Church will constitute an invisi ble spiritual Kingdom, backed by I finite Wisdom and Power; and tha the Anient Worthies, from Abel t John the Baptist, will be resurrecte perfect human beings, and mad "princes in all the earth"—represe tatives of that spiritual Kingdom.

Our minds have been so long blind ed by false theories, and the Bibl has received so little intelligent stud that it is not surprising that we hav all erred on so important a matter.

Introductions Not Necessary.

WHY, WHEN AND HOW THE SECOND ADVENT

**"Billy" Sunday's Views Better
Than "Orthodoxy's."**

Bible Views Long Buried Now Coming to Light—Erroneous Teachings of the Creeds—Reasonableness of Bible's Presentation—Instead of World-Burning, Messiah's Kingdom Will Be Blessing.

Norfolk, Va., Feb. 28.—Pastor Russell, addressing a large audience here to-day, discussed Christ's Second Advent, from the text, "If I go away, I will come again and receive you." (John 14:3.) He complimented Billy Sunday by saying that although Billy's teachings did not

come up to the Bible, nevertheless he is far ahead of so-called "Orthodoxy" on this subject.

The Pastor agrees with Mr. Sunday in teaching that our Lord Jesus is coming to establish a world-wide Empire which will bless all mankind with fullest opportunity to do right. But he disagrees with Mr. Sunday's theory that the billions who died during the past six thousand years in ignorance of Christ will suffer to all eternity because of that ignorance. Those billions include all who have never truly heard of Jesus, in heathen lands and at home where, according to Mr. Sunday, some were led straight down to Hell by the churches.

The Bible thought, the speaker declared, is altogether different—that he dead are in neither Purgatory nor fiery Hell, but in the Bible Hell—he tomb; and that "all that are in their graves shall hear the voice of the Son of God and come forth." The aintly will come forth to glory with Christ in His Kingdom; others, to a resurrection—a raising up out of sin and death—by judgment.—John 5:28, 29. Revised Version.

Those who have not intelligently heard of Jesus and His salvation are not on trial now. Their death is the penalty of Adam's sin, not of personal rejection of Jesus. It is to give these the opportunity of a judgment, trial, during Christ's Millennial Reign that they will be brought from the tomb. As all died through one man's disobedience, all will come forth to an opportunity of everlasting life through the obedience of the other man—Christ. The resurrection of the dead is their only hope. (Acts 24:15.) In view of this the whole world are said to "sleep with their fathers."

"Orthodoxy Is Still Worse.

The speaker then showed that those styling themselves "Orthodox" are still further astray from the Bible. "Orthodoxy" declares that there will be no Millennium—no hope for any except the Elect few; that Jesus is coming to burn up the earth and its inhabitants. He quoted many scriptures to refute this teaching. Both Catholic and Protestant creeds declare that at Christ's Second Coming the earth and its inhabitants will be consumed with literal fire. This leads to a literal interpretation of St. Peter's symbolic statement portraying

ONLY SIXTEEN, GIRL VERY SICK

**Tells How She Was Made
Well by Lydia E. Pinkham's
Vegetable Compound.**

New Orleans, La.—"I take pleasure

in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 3961 Tchoupitoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."—Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The Tsar as Bookworm.

The Kaiser has always prided himself on his attainments. He has given his friends the impression that he was a great soldier, and a great sailor, that he could write poetry and compose music, and that some of his paintings deserved to hang in the Berlin salon. As a matter of fact he has not the intellectual attainments of the Tsar, who has called himself the bookworm of Europe. Though narrow in his sympathies, the Russian Emperor is a wonderfully well-read man. His Asiatic tour instilled in him a love of Indian history.

The Tsarina, though admired for her cold statuesque beauty, has been as much a mystery as her husband. She has been described as an Empress who, for all the emotion she shows, might have been carved out of marble; he, as a religious exalte. This impression of the Tsarina is a false one. In the company of her children she is revealed as an affectionate, warm-hearted woman; away from the nursery she seems to hide all her real qualities. Once the Empress was asked what recreation she liked best. She replied, "A poem well read and aloud. Poetry calms the soul and makes it strong."

Out of His Line.

Mrs. Smith was young and inexperienced, but she was ambitious. So one afternoon she waded deep into the bookbark and dug out an angel

Auditors' Report, Town of Napanee For the year ending December 31st, 1914.

To the Mayor and Council of the Corporation of Napanee:

Gentlemen:—We, your auditors, appointed by the Council to audit the accounts of the Treasurers for the year ending Dec. 31st, 1914, beg leave to report as follows:

We hand you herewith the following statements in duplicate:

1. Receipts and Expenditures for the year ending Dec. 31st, 1914.
2. Abstract statement for the year ending Dec. 31st, 1914.
3. Assets and Liabilities at the end of year ending Dec. 31st, 1914.
4. Receipts and Expenditures of Collegiate Institute for the year ending Dec. 31st, 1914.
5. Receipts and Expenditures of Public Schools for the year ending Dec. 31st, 1914.
6. Debenture Debt at close of the year ending Dec. 31st, 1914.

Your Treasurers have produced proper vouchers for all receipts and expenditures: The balance of cash on hand agrees with the balances as shown by the Bank. The documents are all properly filed. The books are neatly and correctly kept. The Bonds for the Treasurer and the Collector have been renewed and the Renewal Receipts are in the hands of the Clerk.

All of which is respectfully submitted.

A. C. BAKER,

Napanee, February 10th, 1915.

JOHN T. GRANGE, Auditors.

Supplementary Statement, Town of Napanee Dec. 15th to Dec. 31st, 1914.

This impression of the world is a false one. In the company of her children she is revealed as an affectionate, warm-hearted woman; away from the nursery she seems to hide all her real qualities. Once the Empress was asked what recreation she liked best. She replied, "A poem well read and aloud." Poetry calms the soul and makes it strong."

Out of His Line.
Mrs. Smith was young and inexperienced, but she was ambitious. So one afternoon she waded deep into the cookbook and dug out an angel cake, which she placed before the old man at the evening meal.

"What's the matter with the angel cake, Harry?" asked wifey disappointedly on noticing that he studiously avoided it. "Isn't it good enough?"

"It isn't that, dear," gently responded the old man. "I'm afraid that I am not good enough."

"Good enough for what?" snerled little wifey with a puzzled expression.

"Good enough to become an angel, sweetheart," softly answered hubby.

Highest Endurable Temperature.
It is difficult to say what the highest temperature is that a human being can live in. In the kitchens of some of the great hotels and in the stokeholes of some steamships the temperature gets to 140 or 145 degrees. Cooks and their helpers and stokers have to endure that temperature for hours at a time, and they seem to get along pretty well. The hottest place perhaps where human beings work is in the vulcanizing factories, where the temperature is 212, the boiling point of water. There are a few who can stand this heat for a little while at a time, but that is the limit; man can endure no more.

Persuasive Eloquence.
"Weel, weel," said one canny old farmer to another as they left the church after listening to a charity sermon preached by a famous divine, "and he's a wonderful man entirely! He tuk half a crown off me—all the siller I had in my pocket. It's a terrible thing to go to hear a man like thon." "Eh, man," said the other, "it's a' that! But I had heard him afore. So or e'er I ganged to the church I tuk all the money out of my Sunday breeks save only ane bawbee!"

Kitchen Kinks.
Camphor will remove white spots from the furniture, and it will also take out fresh peach stains from table linen if the camphor treatment is followed by soap and water.
When using whipped cream if you add the white of an egg to the cream and whip it it requires less cream and is more delicate in taste and flavor.

Graham Fruit Bread.
Two cupfuls graham flour, one cupful white flour, one cupful sour milk, one teaspoonful soda, two teaspoonfuls each of brown sugar and molasses, one teaspoonful of salt and one-halfcupful each of chopped nuts and seeded raisins, dates or prunes, cut in bits. Bake slowly almost an hour.

Diplomacy.
"But what made you irritate her father?"
"I had to do it. I wasn't any too popular with the girl until her father forbade me the house."

Pearl Fishing Paralyzed.
The pearl fishing industry of Western Australia has been paralyzed by the war and most of the boats have been laid up.

THREE MILK HINTS.

How Cleanliness, Economy, Health, May Be Furthered.

In the interests of cleanliness, economy and health it is of the utmost importance to know how to take proper care of milk. No other article of food becomes so easily contaminated. Merely to make sure that the milk you buy is pure is not sufficient, for there are countless ways in which it can be rendered unfit for use after it reaches your home.

Before removing the cap from a bottle of milk the cap and the neck of the bottle should be washed and carefully wiped with a clean cloth. The cap should not be pushed down into the milk. It may be easily removed with a sharp-pointed instrument without injuring the contents.

The bottle when once open should be kept covered, and the milk should be kept in the original bottle until it is used up. The original cap should not be replaced, but instead an inverted glass may be put over the top of the bottle.

The bottle when not in use should, of course, always be left in the refrigerator, and any milk that has been poured from it into another vessel should not be poured back.

Onions and other foods having a strong odor, especially during the hot weather, very easily impart their distinctive smell to milk that is left uncovered. This is an additional reason for always keeping milk in a covered receptacle.

PAID TO GET THE GOODS.

Consequently He Felt That They Were His by Right.

A claim once made on the explorer Cameron in the neighborhood of Gaboon, Africa, shows the weirdly peculiar workings of the native African's mind. Some of Cameron's possessions proved unduly attractive to a native, and he determined on transferring the ownership to himself. He accordingly paid another native \$200 to procure for him the coveted goods.

The assistant took the money and did his best to earn it, but Mr. Cameron had perversely locked up the very articles that the fellow's employer had set his heart upon. The man could not carry out his bargain, and neither did he feel that he could part with the money. Therefore he ran off with it.

What more logical than that the man who was the loser by \$200 should expect the explorer to make the loss good? This he assuredly did expect.

He went to Mr. Cameron and told him the story, demanding in the first place the \$200 which he (Cameron) by locking up his goods had compelled the complainant to lose and, secondly, the actual price of the goods themselves, which but for these arbitrary measures would now have been in his possession. It is not stated that his expectations were realized.—London Spectator.

EARLY BANK RUNS.

The Dutch Fleet in the Thames Started One in London in 1669.

The first run of which we have any account in the history of banking occurred in the year 1667. It was quickly stopped. At that date the bankers of England were the goldsmiths, who had a short time before begun to add banking to their ordinary business and had become very numerous and influential.

In 1669 the Dutch fleet sailed up the Thames, blew up the fort at Sheerness, set fire to Chatham and burned some ships of the line. This created the greatest consternation in London, especially among those who had intrusted their money to the bankers, for it was known that the latter had advanced

MONTENEGRO AN ODD LAND.

Scratch a Native There and You Will Find a "Superintendent."

Montenegro is one of the oddest countries in the world. There the women are the producers, clothes make the man, the king is greater than the ministry, the chamber or the constitution, and a man may be imprisoned for eating hedgehog. A man who is struck may kill the striker provided it be done at once. If he delays he is punished as a murderer.

A Montenegrin's habit is as costly as his purse can buy, and there the apparel proclaims the man. The baggy blue trousers are the same for the king or the peasant, as is the bright sash which holds the invariable revolver. But from the red jacket and the redingote one connotes whether the wearer be a man of substance and consequence or not. Among the women there are slighter distinctions.

The women engage in the productive pursuits, and yet the man has capacity and when taken from his bellcose environment of his mountain home becomes one of the best of workers. His 500 years of freedom have given the Montenegrin a fine sense of order, and it is a current saying along the Dalmatian coast that when a Montenegrin applying for a job is asked what he can do he invariably answers, "Superintendent."

Respect for age is enjoined by law, and in the articles regulating public conveyances it is provided that the traveler may have the seat indicated by his ticket, but it is added, "The deference due by youth to age requires that the former yield the better place to their seniors." Another article declares the equality of all before the law and lays down the democratic principle of the universal ownership of land and the equal right of all to hold office.

MUST STORM THE FORTS.

It is Not Good Tactics For an Army to Pass Around Them.

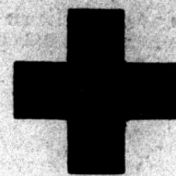

Why not go around a fort instead of trying to storm it? Why not circle the ramparts and proceed swiftly onward with the army intact, leaving the soldiers in the fort, after a manner of speaking, holding the sack as well as the fort?

An officer in the cavalry of the United States army explained why such veranda strategy isn't used and why it cannot be used.

"If it is a mountainous country the fort would be placed in the pass, the only road through which an invading army could travel," he explained. "There would be no fortification on either side, but it would be impossible to move an army with its guns and supplies over the mountains. A single man would have a hard time making the trip.

"Suppose the country were level and the forts were forty or fifty miles apart. In that case it apparently would be easy for the army to pass between the strongholds. The army tries it. The defenders of the country throw up field fortifications between the forts. Behind every rock and roll in the ground a man with a gun is hidden. Rifle pits are dug hastily. The invaders encounter opposition, but perhaps they sweep on.

"Then this would happen: The forces from the forts would sweep out across the rear and cut off the base of supplies. The invaders would be without

The Red Cross Society

The members of the Red Cross Society wish to thank the Conv. Women's Institute for their splendid donation consisting of 24 pairs of socks, 10 pairs of wristlets, 18 hospital shirts and 1 scarf, in addition to a handsome cash donation given previously. We also wish to acknowledge with thanks, the receipt of \$ of the proceeds of the Poultry Show.

We are still making hospital supplies and comforts for the soldiery and will be glad to see as many workers as possible Saturday when the usual afternoon tea will be served.

Women's Patriotic Service and Red Cross Work

Through the Daughters of the Empire

We have observed in the account appearing in the press from time to time, of the patriotic work done by various women's organizations how much stress is laid upon contributions from old ladies. In this aspect we feel we can "hold our own" with any club or society we have heard of as yet. The following now speaks for itself:

Mrs. Harshaw:

Dear Madam—The socks enclosed are the 18th pair I have knitted, and 2 mufflers and three pairs of wristlets. I am past 71 years of age, and willing to keep on as long as I am able.

Mrs. Kilpatrick.

March 4th, 1915.

Another lady, Mrs. Stover, 82 years of age, has knit from 10 to 12 pairs of socks for us. Two other friends, past 80 have knit 2 scarves and are knitting a pair of socks and wristlets; still another lady in her 87th year, has knit two scarves for us, and will continue knitting as long as her strength lasts. We all have some young knitters at the other end of the line of life, the middle distance being filled in with very capable and enthusiastic knitters.

NAVY BLUE KNITTING.

Will those having any of the above kindly finish and bring it in. There are also some hospital night shirts to be made for our next shipment kindly call at the room and take them home.

The popularity of our weekly work meetings and tea is fully sustained every Thursday afternoon, and our committee-room is open as well every Saturday from 2 to 5.30 p.m.

The Alladin lamp supplies can be procured at Wallace's Drug Store agents for Napanee.

ly stopped. At that date the bankers of England were the goldsmiths, who had a short time before begun to add banking to their ordinary business and had become very numerous and influential.

In 1669 the Dutch fleet sailed up the Thames, blew up the fort at Sheerness, set fire to Chatham and burned some ships of the line. This created the greatest consternation in London, especially among those who had intrusted their money to the bankers, for it was known that the latter had advanced large sums to the king for public purposes, and it was rumored that now the king would not be able to pay the money. To quell the panic a royal proclamation was issued to the effect that payments by the exchequer to the bankers would be made, as usual.

In 1671 there was another run on the London banks, when Charles II. shut up the exchequer and refused to pay the bankers either principal or interest of the money which they had advanced. On this occasion many of the banks and their customers were ruined.—London Standard.

Hard to Explain.

Cummings and Weisner were business rivals. One day at the club they fell to talking.

"Do you carry any life insurance?" queried Cummings.

"Yes," was the answer. "I have \$10,000."

"Made payable to your wife?" asked Cummings.

"Yes," said Weisner.

"Well," asked Cummings, "what kind of an excuse do you give to your wife for living?"—New York Press.

Tight Screws.

If screws, gas fittings, the sides of bedsteads or anything else of the kind become tightly fixed and cannot be moved the following method will generally be found to loosen them: Pour a little oil on the tight parts and then hold a lighted candle underneath until it is warm. You will then find that it is easy to separate or unscrew the fixed parts.

Polishing Pearls.

Pearl ornaments may be elegantly polished by first rubbing with olive oil to remove the dirty appearance, then applying any red nail polish. This latter gives a burnished appearance, and with a little fast rubbing the pearl takes on a brilliant glow.—Scientific American.

Germany on North Sea.

The border of Germany on the North sea, from the easternmost corner of Oldenburg to the northernmost point in Schleswig, measures some 200 miles. The Kaiser Wilhelm (Kiel) canal is sixty-one miles long and cost \$40,000,000.

Idle Curiosity.

For no reason at all we have wondered and wondered and wondered what moths ate before Adam and Even went in for dress reform.—Philadelphia Ledger.

Where life is more terrible than death it is the truest valor to dare to live.—Brown.

the forts were forty or fifty miles apart. In that case it apparently would be easy for the army to pass between the strongholds. The army tries it. The defenders of the country throw up field fortifications between the forts. Behind every rock and roll in the ground a man with a gun is hidden. Rifle pits are dug hastily. The invaders encounter opposition, but perhaps they sweep on.

"Then this would happen: The forces from the forts would sweep out across the rear and cut off the base of supplies. The invaders would be without food, and the men would have no time for sleep.

"In two days the organization would be destroyed, and the enemy's cavalry approaching from the rear would cut the invaders to bits. Soldiers without food and denied sleep can't fight. Men remember their discipline best on full stomachs. An army cut off from its base of supplies would fall apart and be an easy prey for a much smaller force.

"It is better to take the fort if possible. The communication with the rear, where the supplies are, is thus interrupted, and most of the opposing force is driven ahead."—Kansas City Times.

THE NEED OF GREATER PRODUCTION

Great Britain has invested more money in this country than in any other country in the world, outside of the United States. The sum total is no less than \$2,500,000,000, being equal to \$400 for every man, woman and child.

This money has gone largely to provide railway and other facilities on our business. It is loaned money, and bears one hundred and twenty millions of dollars interest annually. That interest must be met. It can be met only by exporting surplus products. There is a ready market for all the farm products we can produce over and above our own requirements. A twenty per cent. increase in farm production will cover our interest payments and maintain the country's credit.

This is one answer to the question, Why is it necessary that Canada at this particular time should increase the output of the farm?

It is neither asked nor expected that the farmer should bear the whole burden. The railways and other organizations engaged in the transportation of products must bear their share. The financial institutions of the country must be asked to assist in financing the farmer's business as well as the manufacturer's. The farmers of almost every country in Europe enjoy the advantages of rural credits. Similar facilities are urgently needed here.

The need of supplying the farmer with information that will enable him to distribute and market his products to the best advantage, is becoming more and more urgent. The Canadian Minister of Agriculture recently put the matter in this form: "It is not, therefore, only greater production, but better production and cheapened production, more accurate knowledge of markets and better facilities for reaching them. All these things are tied up together, and it is to these things that not only farmers but Governments, bankers and transportation men have to address themselves."

A clearer understanding of some of the handicaps retarding production will be one of the good results that must grow out of the present campaign.

But let not the farmer stay his hand because these and other defects in the economic system have not yet been remedied. Your country needs you, and needs you now.

The loyalty and patriotism of the farmer has never been called into question. He has the opportunity before him to give expression to his patriotism by helping to keep up the food supply of Britain and her Allies. There is a higher motive than that of the pocket merely, and it should be a stronger one.

At the same time the business aspect must be recognized. With a food shortage staring it in the face, the world is ready to absorb at good prices all we can produce.

The main object of the campaign is to make clear the situation.

There is no more reasonable body to deal with than the farmers. Lay the facts before them clearly and fully and they may be relied on to reach a correct decision.

There is no necessity for calling upon the farmer to work harder or for longer hours. Neither is it advisable to dictate to him as to what he should produce, nor how he should produce it. The individual

ZIG-ZAG OR STRAIGHT.

Hon. Mr. Hearst, in the reply to the demand of the Dominion Alliance Deputation for the total prohibition of the sale of liquor—"The zig-zag path is often the best."

Mr. N. W. Rowell, at the Massey Hall meetings of the Dominion Alliance convention—"This is no time for zig-zagging in temperance movement."

It is but natural that the delegates to the Dominion Alliance, who, in an enormous deputation, interviewed Premier Hearst and his Government at the Parliament Buildings on Friday, March 5th, should feel disappointed with the Government's attitude. The Prime Minister, of course, was non-committal and did not say definitely what he would do or what he would not do but the tenor of his remarks revealed the fact that he was not likely to grant what the deputation asked for, which was the complete prohibition of the sale of liquor in Ontario, if not for all time, for the very least during the course of the present war.

"The zig-zag path is often the best" was one of the disappointing remarks made by Mr. Hearst, showing an admitted lack of directness in his desire to deal with the request of his deputa-

tion, "asked Mr. Ham, who also objected to the fact that at the new cow shed as the prison farm the cost per stall for each cow was \$300, whereas Mr. Ham said good accommodation could have been provided for \$100 a cow at the very most."

In regard to Government House, Mr. Ham pointed out that even on a basis of the cost of \$1,000,000, which would probably be exceeded before the building was completed, this would have provided 200 farms at \$5000 a-piece.

"All this extravagance," concluded Mr. Ham, "is at the very time when many of our people are forced to live only on bread and potatoes."

NOTES.

The name of the Moratorium Bill has been changed to the "Mortgages and Purchasers Relief Act." There has been much discussion in the House as to the details of this measure but practically no opposition to its principle. The bill is still in the committee stage and there may be several changes before the measure becomes law.

The Liberals objected vigorously but unsuccessfully to the Government Bill putting part of the City of London back into the Riding of East Middlesex. The Opposition claimed that this was another case of jerry-mandering and felt that the Government were ill-advised in pushing through such a distinctly partisan measure at this Ses-

indly mish and bring it in. There are also some hospital night shirts) be made for our next shipment, indly call at the room and take them home.

The popularity of our weekly-work- ings and tea is fully sustained ury Thursday afternoon, and our ommittee-room is open as well every aturday from 2 to 5.30 p.m.

The Alladin lamp supplies can be ocured at Wallace's Drug Store, gents for Napanee.

W. C. T. U. ITEMS.

Carnations, Daffodils, and Violets special prices at Hooper's on tuesday.

The main object of the campaign is to make clear the situation.

There is no more reasonable body to deal with than the farmers. Lay the facts before them clearly and fully and they may be relied on to reach a correct decision.

There is no necessity for calling upon the farmer to work harder or for longer hours. Neither is it ad- visable to dictate to him as to what he should produce, nor how he should produce it. The individual farmer must decide for himself how best to meet the demand.

We see the question asked, and ask- ed too, by agricultural journals. How can the farmer increase the output without putting more acres under cultivation and employing more labor?

That production may to some ex- tent be increased without a corres- ponding increase in labor is clearly indicated. The best strains of seed will give larger yields than inferior kinds. A strain suited to the soil and climate and sown at the right time will give better returns than seed that is not. Pure seed, plump seed, seed of strong vitality, will in- crease the yield. These and other im- portant principles are not as widely applied as they might be.

There is an appalling and almost universal waste in the handling of liquid and solid manure in this country. Rectify this and restore to the soil the elements of fertility now lost through lack of care, and pro- duction may be increased without any appreciable increase in labor.

If the facts of the case indicate it, as we believe they do, then the farm- er is warranted in employing more labor, provided suitable labor can be secured; he is warranted in prepar- ing his land better, sowing his seed better, and in this manner doing what he can to meet the Empire's needs. The man who fails in his duty in the country's crisis, will re- gret it all his days.

THE DAWN OF SPRING.

(By A. Irene Cowan.)

There cometh in this first spring month, A gentle breeze, the glowing sun, The robin's song and canary chirrup, Methinks springtime says, "cheer up."

In every nook the laughing brook, That bids the sad a happy day, E'en the beasts of the field are glad, That winter is gliding away.

There cometh the violet hue, Peeking earth's brown bed, The wild flowers scatter in view, And leaves adorn the stalks of head.

Nature showers happy tears, So that the white mantle disappears The seed grows within brown earth, And up springs the flowery mirth.

Then nature brings forth the velvety green, As in a very short time will be seen, And clothes the smiling fields with corn, While other beauties are being born.

Doesn't nature do her part, With God, her Director, Guide and Chart? And forget not the blue sky above, For springtime means birth and love.

committal and did not say definitely what he would do or what he would not do but the tenor of his remarks re- vealed the fact that he was not likely to grant what the deputation asked for, which was the complete prohibi- tion of the sale of liquor in Ontario, if not for all time, for the very least dur- ing the course of the present war.

"The zig-zag path is often the best" was one of the disappointing remarks made by Mr. Hearst, showing an ad- mitted lack of directness in his desire to deal with the request of his deputa- tion. As if this remark was not enough, the Prime Minister emphasized it still futher by saying that a "frontal attack is not always the best."

Hon. Mr. Hanna was equally disap- pointing to the temperance people.

The futherest he would go was to say that they would not find this Gov- ernment behind the previous Govern- ment in its dealings with the liquor traffic. What the temperance people asked for, of course, was a policy much in advance of that given by the Gov- ernment of Sir James Whitney on this particular point.

Mr. F. S. Spence, in speaking in sup- port of the deputation's views, told the Premier that he held office today thanks to the votes of a large number of Conservatives who believed that if Conservative party were returned it would charge its policy on the temper- ance question and advance rather than stand still. "Now is Mr. Hearst's op- portunity," said Mr. Spence "to let the temperance Conservatives see if they were right or not."

Ex-Mayor Lees of Hamilton, in sup- porting the demand for the total pro- hibition of the sale of liquor in the Province, said that he and his family were Conservatives and always voted Conservative when they had a chance but did not so when they felt the Gov- ernment was opposed to advanced tem- perance measures.

At the concluding session of the Do- minion Alliance conference, Mr. Row- ell acted as Chairman.

GOVERNMENT EXTRAVAGANCE

Effective, specific instances of the extravagance of the present Ontario Government were given by Joseph Ham, Liberal member for South Brant, the course of his maiden speech.

"The men" he prefaced his remarks by saying, "who were entrusted with the responsibility of handling the Pro- vincial finances during the years when money was plentiful, did not see to it that a full dollar's worth of value was obtained for every dollar expended. They did not like wise business men, lay a little aside every year for a time of stress. The result to-day is an empty Treasury and a deficit. At the very time when the people of Ontario are hard enough pressed for money even as it is, the Government levies an ex- tra tax upon them. I am as anxious as anyone that the Allies should receive the fullest support from Ontario, but if the Government had administered the finances of the Province in a care- ful way, it would have had sufficient money to-day to make all necessary grants without levying this special tax of one mill on the dollar."

The three items of expenditure es- pecially objected to by Mr. Ham were (1) The cost of Civil Government, (2) The cost of the Prison Farm at Guelph, especially the cow stables, and (3) The cost of Government House.

The population of Ontario in the last ten years has increased about 12- 58%; the cost of Civil Government in the same period has increased 120%. Even if the Government had been justified in an increase of 50% there is still a difference between that and the actual 120% increase on this one item alone of \$200,000 a year or a total for the ten years of \$2,000,000—wasted.

At the prison farm there had been a capital expenditure of \$18,000 for every fire prisoners lodged there. "Is it quite fair that this amount should be spent on prisoners when very few farmers or working men in the Pro- vince have farms or houses worth any- thing like \$18,000 for themselves and

to the details of this measure but practically no opposition to its princi- ple. The bill is still in the committee stage and there may be several changes before the measure becomes law.

The Liberals objected vigorously but unsuccessfully to the Government Bill putting part of the City of London back into the Riding of East Middle- sex. The Opposition claimed that this was another case of jerrymander and felt that the Government were ill- advised in pushing through such a dis- tinctly partisan measure at this Ses- sion.

SALAD SUGGESTIONS.

Here is a List of Hints For Lunches and Tea Parties.

Here are 15 salad possibilities that may help the busy housewife to attain variety in preparing salads:

Sliced cold tomatoes and sliced hard boiled eggs served on watercress with French dressing.

Sliced pickled beets mixed with chopped celery and served with a scant dressing made of two tablespoonfuls of cream beaten with one tablespoonful of vinegar.

Sliced cold bananas, sprinkled with chopped parsley, dressed with French dressing and served on lettuce leaves.

Chopped cabbage mixed with small dice of tart apples, dressed with French dressing.

Minced celery dressed with French dressing combined with cut of walnut meats mixed with mayonnaise dressing, served on lettuce leaves.

Young okra pods boiled tender, sliced cold with shredded green peppers, served on lettuce leaves, with a dressing of oil, vinegar, salt and pepper and a little horseradish.

Peas cooked with mint leaves, served with chopped chicken on lettuce leaves with French dressing. Minced lamb may be used instead of the chicken.

Watercress served with a dressing of equal parts of lemon juice and olive oil, sprinkled with grated egg yolk.

Cold boiled Brussels sprouts served on lettuce with a French dressing to which are added a few drops of tobacco sauce.

Cold baked beans dressed with the juice of a lemon and minced celery, served on lettuce leaves with mayonnaise dressing, garnished with olives and sliced cold tomatoes.

Young carrots which have been cooked in stock, cut thin and served on lettuce leaves with peas dressed with mayonnaise or French dressing.

Sprigs of boiled cauliflower, slices of hard boiled eggs and slices of tomatoes served on a bed of watercress dressed with French dressing.

Two sliced beets pickled in vinegar, four boiled potatoes sliced in the vinegar juice of the beets, served on watercress or lettuce leaves with salt and olive oil dressing.

Sprigs of cold boiled cauliflower served on lettuce leaves dressed with mayonnaise.

Thin sliced boiled potatoes, sprinkled with chopped parsley, over lettuce leaves with French dressing.

Remember in making all salads that the vegetables should be of the best. Raw vegetables should be well

THE FIRELESS COOKER

HOW TO MAKE ONE AT HOME
WITH SMALL OUTLAY.

A Box Lined With Asbestos Board Neatly Tacked In; Two Dividing Partitions of Asbestos, Three Asbestos Nests Wired Together and Some Sawdust Complete an Inexpensive Utensil.

The cooker in question was designed by a young housewife and was made by her husband under her supervision. It is a compact box about thirty inches long by fifteen deep. The cover, instead of fitting over the top, fits just inside, and it is fastened in place, when the box is closed, by two wooden buttons set on to the edge of the box by screws.

The box is lined on the inside with asbestos board, which is neatly tacked in. Two fifteen-inch squares of the same asbestos material divide the interior into three chambers or compartments of equal width. The round openings or "nests" into which the cooking utensils are made to fit are made by rolling pieces of asbestos into cylinder shape and fastening them together with a fine wire.

These round nests vary slightly in diameter, the smallest being six inches and the largest seven inches. The spaces between these nests and the sides of the compartments are filled with sawdust, which is packed closely.

A large sheet of asbestos, cut to exactly fit over the top of the box, has three round openings for the three nests. This piece is tacked firmly in place and presents a very neat appearance. It fits close in at the top of the box, so that when the cover is shut down there is no space between.

There are three small squares of the asbestos which are for covering over the nest openings when food is set in them to be cooked.

Two of the cooking vessels used in this homemade cooker are five pound lard pails, which have tight fitting covers. The third is a larger can, also of tin. The pails have wire handles and the large can has a small wire ring in the cover, by means of which it can be lifted. The smaller cans are designed for cooking cereals, puddings and vegetables and for baking round loaves of bread, while the large can is designed for cooking meats.

The feature of this cooker, which distinguishes it from most homemade articles, is that it has soapstone and iron plates, which can be heated so that roasting and baking can be done in the cooker. There are two soapstone plates, roughly cut, it is true, but they answer the purpose for which they are intended. They are made from a soapstone warmer, this having been cut in halves and the corners of each half sawed off, so that the soapstones have a hexagonal shape. The two iron plates are small, round stove covers.

The owner of this ingenious cooker declares that it is entirely practical and serviceable. By heating the two soapstones and placing one at the bottom of a nest and the other on top of the cooking vessel, after the food has been put inside and the cover put on, she can bake bread or roast meat. In doing the roasting, however, she broils the meat in a frying pan before putting it into the cooker.

In cooking breakfast cereal (which is put in the cooker the night before) and in boiling vegetables neither soapstones nor iron plates are used. This cooker, which cost about

AGATEWARE SALE—Made in Canada. Agateware—See our window for line of agateware. For this one lot you will get the best bargains you ever seen for quality; better prices than any departmental store offered, or 7 cent store. Watch the window. See the bargains. Prices will remain until sold out. No half dozen lots to any one person. At BOYLE & SON.

For sale at Wallace's, Napanee's Leading Drug Store.

dressed with French dressing. Two sliced beets pickled in vinegar. Three boiled potatoes sliced in the vinegar juice of the beets, served on watercress or lettuce leaves with salt and olive oil dressing.

Sprigs of cold boiled cauliflower served on lettuce leaves dressed with mayonnaise.

Thin sliced boiled potatoes, sprinkled with chopped parsley, over lettuce leaves with French dressing.

Remember in making all salads that the vegetables should be of the best. Raw vegetables should be well chilled. Boiled vegetables should not be well done. Lettuce leaves should be torn, never cut.

"Scientific Police."

The University of Lausanne (Switzerland) has a faculty named the "Scientific Police Department." It is on the same footing as the classical and scientific faculties, and is the only one of its kind attached to any university in the world.

At the head of the "Scientific Police" is Prof. R. A. Reiss, who, by reason of his wonderful deductive work in tracing crime and criminals has obtained a world-wide reputation in the inner police circles of the world's capitals. He is also widely known as the "Swiss Sherlock Holmes," and has often been consulted by the Berlin, Vienna, London and Paris police departments. He has just returned from Brazil, where he went at the request of the Brazilian Government to reorganize the whole police system.

Wisdom From Inexperience.

Mr. Brown met Mr. Jones. "Any news, Brown?" asked Jones. "Nothing special. I've just been reading the Sunday paper, and I find one peculiar thing in it that may be news to you."

"What is it?" "The Sunday paper says that women in ancient Egypt used to act as they pleased, live as they pleased and dress as they pleased without regard to what the men thought. Lucky we don't live in those times, what?"

"Mr. Brown, are you married?" "What has that got to do with it? As a matter of fact I'm not."

"I thought not."

Hot Potato Salad.

Three potatoes boiled and sliced rather thickly. Fry three or four slices of breakfast bacon and remove from the drippings. Into this put one heaping teaspoonful of flour, one chopped onion, one teaspoonful dry mustard, one tablespoonful vinegar, a few sprigs of parsley, salt and pepper as desired. Let this boil until consistency of cream and pour over the potatoes while still hot. This is very nice served cold also, but a more delicious dish if steaming hot and a delightful accompaniment to cold meat.

London's Costly Tree.

Probably the most costly tree in the world is a plane tree which grows in Wood street, London. It occupies a space that would bring a rental of \$1,250 a year, and this capitalized at thirty years' purchase gives a value of \$37,500.

Memory.

Says Jean Ingelow: "They are poor who have lost nothing; they are poorer far who, losing, have forgotten; they most poor of all who lose and wish they might forget."

Our wealth is often a snare to ourselves and always a temptation to others.—Cotton.

and serviceable. By heating the two soapstones and placing one at the bottom of a nest and the other on top of the cooking vessel, after the food has been put inside and the cover put on, she can bake bread or roast meat. In doing the roasting, however, she broons the meat in a frying pan before putting it into the cooker.

In cooking breakfast cereal (which is put in the cooker the night before) and in boiling vegetables neither soapstones nor iron plates are used.

This cooker, which cost about \$1.50, is expected to take the place of a range oven for its owner. She has a two burner alcohol stove, on which steaks and chops will be cooked and over which the soapstones and iron plates are heated. At night some water is heated over the alcohol stove to put into the "fireless" and kept warm for toilet use in the morning. The cereal also is brought to a boil and then set into the cooker. In the morning there is no building of fires necessary. The cereal is ready for the table and coffee can be made and eggs or fish cooked in a few minutes over the alcohol stove. While breakfast is being eaten the dishwater is heating.

After breakfast a fricassee or stew or braise is made ready for the cooker and set into it to cook for the mid-day meal. This does away with excessive heat in the kitchen, and the clever woman who contrived the cooker declares that it has already proved to be worth much more than the small amount of money it cost.

Mutually Appreciative.

Billings (meeting Baxter, who is walking rapidly along the street)—Hello, Baxter! Why this rush?

Baxter—I'm walking fast to keep that fellow Staggs from catching me up. He's an awful bore.

Billings (meeting Staggs, who is walking slowly)—Hello, old fellow! Why are you dawdling along in this way?

Staggs—To keep from catching up with that fellow Baxter. He's the worst bore in town.

Object of Education.

The entire object of true education is to make people not merely "do" the right things, but "enjoy" the right things; not merely industrious, but to love industry; not merely learned, but to love knowledge; not merely pure, but to love purity; not merely just, but to hunger and thirst after justice.—Ruskin.

Why He Loved Spain.

Gioacchino Rossini, who was a great jester, was once seen embracing a Spaniard with great effusion. Asked the reason, he replied, "Because without Spain we would be the last nation."

He Won Her.

"I am just starting out in the city," remarked the young man.

"The world is your oyster," suggested the young lady.

"Yes, and I have found a pearl right away."

Mean Brute.

"A woman can't be in two places at the same time!" snapped Mrs. Gabb during the usual morning fuss.

"I notice that you can be in and out of the house at the same time when some female that you don't want to see happens to call," replied Mr. Gabb.—Cincinnati Enquirer.

More helpful than all wisdom is one draft of simple human pity that will not forsake us.—Ellot.

Air Attack on Ostend

London, March 8.—The admira to-night issued the following statement:

"Wing Commander Longmore reports that an air attack on Oste was carried out yesterday afternoon by six aeroplanes of the naval wing. Of these two had to return owing their petrol freezing. The remainder reached Ostend and dropped eleven bombs on the submarine repair base and four bombs on the Kursaal, the headquarters of the military.

"All the machines and pilots turned. It is probable that considerable damage was done. No soldiers were seen in the basin. The attack was carried out in a from north-northwest wind."

Tommy Would Decide Quickly.

Discussing the advantages of living in a city, a rural resident told an occasion when the water supply was polluted and had to be distilled—a very slow process. "You can imagine how careful we had to be," said. "One afternoon my wife came to me and asked if she had better wash Tommy's face or have boiled potatoes for supper!"—London Mail.

Enigmatical.

"Little girl, did you ask your mother, as I told you, to lend me some eggs for my cake?"

"Yes'm, and she said she hadn't eggs to lend, but she'd give you lemon."

Man and His Doctor.

The day is coming. What day? The day when we will pay the doctor annually to keep us well instead paying him every time we get sick to make us well.

Emerson's Style.

Emerson's style was tersely summed up in the words of his dear friend Thomas Carlyle. Wrote the "Sage of Chelsea" of his friend's way of writing: "It is pure, genuine Saxon; strong and simple; of a clearness, of a beauty but does not sometimes rightly stick together. The paragraphs are not beaten ingots, but beautiful square bags of buckshot held together by canvas."

Don't be persuaded in buying "something just as good," because there is nothing just as good as one new electric louse powder, 25c per lb at Wallace's Drug Store, sole agent.

Canadians

Capture Trench

London, Tuesday Morning, March 9.—The Boulogne correspondent of The Daily Telegraph writes that from a reliable source he learns that a company of Canadians last Sunday evening, after a gallant fight against enormous odds, captured a trench near Lombaertzyde. The enemy lost numbers of men, had no casualties of any description.

Turks lost nine hundred In Persian Gulf Conflict

London, March 8.—In a statement issued this evening regarding the recent fighting between British troops and Turkish forces at the head of the Persian Gulf, the official press bureau said:

"The enemy's losses near Ahwaz (in Khuzstau) on March 3 was heavier than previously reported. Six hundred were killed and many were wounded.

"In the action on the western flank the enemy lost 300 men killed."

Collier was Torpedoed Foe gave no Warning

London, March 8, 10.05 p.m.—The admiralty announces that the British collier Bengrove was sunk Sunday, probably by a torpedo, off Ilfracombe which lies ten miles northeast of Barnstaple, County Devon, England.

The British steamer Bengrove was seen in distress sounding her siren five miles off the shore at Ilfracombe at 1.30 o'clock Sunday afternoon. Forty minutes later the ship's bow rose from the water and she sank by the stern. Thousands of people stood on the shore and watched her go down. Two steamers were in the vicinity, one of which, the Paington, of Liverpool, rescued the crew of 33 and local lifeboats brought them ashore amid the cheers of the populace. The captain of the Bengrove made this statement:

"We had no warning. There was a loud explosion forward, which threw everybody on board off their feet and covered them with debris and coal, but nobody was seriously hurt. We took to the boats quickly and order-

CARDINAL FACTS

Everybody can do a little. Every man should do what he can.

Every woman should do what she can.

Improved production means increased production.

Canada's future depends upon our actions of to-day.

In serving the Empire we are serving ourselves.

Markets are not created, won and held in a day.

Now is the time to prove ourselves the Granary of the Empire.

We have the soil, we have the resources, we must have the energy to use them to the greatest advantage.

As we acquit ourselves at this crisis, so will be our prosperity and pride in years to come.

With more than half of productive Europe engaged in war, and large sections decimated, other countries and especially those forming the British Empire, will have to make up huge deficiencies, both of foodstuffs and material.

Great Britain imported 51,780,915 bushels of wheat from Canada in 1913. She imported 80,013,879 bushels from the United States. She also imported 12,780,000 bushels from Russia and Central Europe.

Great Britain imported 24,148,833 bushels of barley in 1913 from Russia, Roumania, Turkey, Germany and Austria. From Canada she took 5,977,533 bushels, or less than a fourth.

Great Britain took 22,454,683 bushels of oats from Germany, Russia and Roumania in 1913, of which one half was from her bitterest and most savage enemy of to-day.

Great Britain imported 185,125,000 bushels of wheat from August 1, 1913 to July 31 1914. Russia exported 163,207,000 bushels and Roumania 45,643,000 bushels in the same time. How far is Canada going to help to make up the deficiency?

Great Britain imported from Aug. 1, 1913, to July 31, 1914, 54,307,000 bushels of oats. Russia exported 34,750,000 bushels, Germany 25,077,000 and Roumania 17,195,000 bushels. Who is going to make up this deficiency of seventy-seven million bushels?

C. A. WISEMAN,

Agent,

JOHN ST., - NAPANEE

1915—BUSINESS AS USUAL—1915

RICHMOND MINUTES.

Selby, March 1st, 1915.

The Council met at Selby.

The members present were: Messrs. Carleton Woods, Reeve, and Councillors Christie Kellar, R. Z. Bush, E. R. Sills and Walter Russell, the Reeve presiding.

The minutes of the last meeting were read and confirmed.

Several communications were read, and on motion, were filed for future reference.

Moved by E. R. Sills, seconded by W. Russell, that the Auditors' report be received and adopted, and the auditors, Messrs. F. VanVlack and W. E. Spencer, be given an order on the treasurer for \$25.00 for auditing the accounts of the Township for the year 1914. Carried.

Moved by W. Russell, seconded by R. Z. Bush, that a separate road beat be formed on side road between lots 15 and 16 in 2nd concession, placing E. P. Smith and son and John McCaul on said beat, also that a separate road beat be formed on concession road between con. 8 and 9, across lot No. 21, placing Thomas Deline, John Bradshaw, Jas. Boothe, and Carleton Woods on said beat. Carried.

Moved by E. R. Sills, seconded by C. Kellar, that road beats Nos. 64 and 66 be joined together as one beat, No. 64, with Schuyler French appointed as pathmaster. Carried.

Moved by W. Russell, seconded by C. Kellar, that the following accounts be paid: Willet Pringle for opening road from West Plain south on road without any established road work, \$10.18; Mrs. Levi Doney, as aid for months of March and April \$5.00; Mr. Richard Lloyd as aid for

Air Attack on Ostend

London, March 8.—The admiralty to-night issued the following statement:

"Wing Commander Longmore reports that an air attack on Ostend was carried out yesterday afternoon by six aeroplanes of the naval wing. Of these two had to return owing to their petrol freezing. The remainder reached Ostend and dropped eleven bombs on the submarine repair base and four bombs on the Kursaal, the headquarters of the military.

"All the machines and pilots returned. It is probable that considerable damage was done. No submarines were seen in the basin. The attack was carried out in a fresh north-northwest wind."

Tommy Would Decide Quickly.

Discussing the advantages of living in a city, a rural resident told of an occasion when the water supply was polluted and had to be distilled—a very slow process. "You can imagine how careful we had to be," he said. "One afternoon my wife came to me and asked if she had better wash Tommy's face or have boiled potatoes for supper!"—London Mail.

Enigmatical.

"Little girl, did you ask your mother, as I told you, to lend me some eggs for my cake?"
 "Yes'm, and she said she hadn't no eggs to lend, but she'd give you a lemon."

Man and His Doctor.

The day is coming. What day? The day when we will pay the doctor annually to keep us well instead of paying him every time we get sick to make us well.

Emerson's Style.

Emerson's style was tersely summed up in the words of his dear friend Thomas Carlyle. Wrote the "Sage of Chelsea" of his friend's way of writing: "It is pure, genuine Saxon; strong and simple; of a clearness, of a beauty, but does not sometimes rightly stick together. The paragraphs are not beaten ingots, but beautiful square bags of buckshot held together by canvas."

Don't be persuaded in buying "something just as good," because there is nothing just as good as our new electric louse powder, 25c per lb. at Wallace's Drug Store, sole agents.

sank by the stern. Thousands of people stood on the shore and watched her go down. Two steamers were in the vicinity, one of which, the Paignton, of Liverpool, rescued the crew of 33 and local lifeboats brought them ashore amid the cheers of the populace. The captain of the Bengrove made this statement:

"We had no warning. There was a loud explosion forward, which threw everybody on board off their feet and covered them with debris and coal, but nobody was seriously hurt. We took to the boats quickly and orderly. We watched the ship sink and then came ashore thru the agency of the Paignton."

Turks Intended To Offer Terms

PETROGRAD, March 8.—I hear that when the allied squadron threatened to force the Dardanelles a supreme council of war was summoned at Constantinople, which was attended by the Ottoman Government and the German master of Constantinople. From the decision arrived at it is very evident that the Germans dictated. It was decided that if the Dardanelles defences were overcome terms should be offered at once to England; that Turkey should throw herself on the tender mercies of England and endeavor to save the imperial city at the price of tamely surrendering the guardianship of the Dardanelles in perpetuity to England. The obvious intention of such a proposal was to sow discord among the allies. Whether these terms were ever brought to the notice of the British admiral or government in England I do not know, but probably something was known on the spot, for action of a striking character was immediately taken when the Russian cruiser Askold joined her flag to the British and French fleet.

Pats Blew up Trench After Brilliant Charge

LONDON, March 8.—One of the most dashing exploits of the war so far was the capture and blowing up of a German trench by the Princess Patricia's a week ago. Eight wounded members of the Pats who have arrived at the Queen's Canadian hospital, Shorncliffe, describe it as the first bayonet charge by the regiment.

Early in the morning the regiment charged a German position, killing eight and wounding more than 20. The remainder of the German detachment was put to flight. The German trench was then blown up.

This all happened in twenty minutes. The Pats suffered two killed and sixteen wounded, including Major Hamilton Gault, who is now in the hospital at Shorncliffe.

Most of the Canadian casualties occurred when the Pats were returning to their own trench, when machine guns were turned on them by the Germans. Several Germans who had been captured by the Pats were killed by the fire of their own men.

While one company of the Pats were capturing the German trench, another held off the German supports. Much praise is given the regiment for its gallant feat.

I am informed that the Canadian Highland Brigade, including the 48th Regiment of Toronto, has been in heavy fighting in the trenches with slight losses. Canadian artillery, including big guns, are doing effective work.

Huffman's Goitre Cure will cure thick neck when all else fails, not a remedy used externally which only tends to harden the enlargement, but used internally, removing all traces of the disease. Treatment only costs about 25c a week. For full information apply at Wallace's Drug Store, Napanee, sole agents.

report be received and adopted, and the auditors, Messrs. F. VanVlack and W. E. Spencer, be given an order on the treasurer for \$25.00 for auditing the accounts of the Township for the year 1914. Carried.

Moved by W. Russell, seconded by R. Z. Bush, that a separate road beat be formed on side road between lots 15 and 16 in 2nd concession, placing E. P. Smith and son and John McCaul on said beat, also that a separate road beat be formed on concession road between con. 8 and 9, across lot No. 21, placing Thomas Deline, John Bradshaw, Jas. Boothie, and Carleton Woods on said beat. Carried.

Moved by E. R. Sills, seconded by C. Kellar, that road beats Nos. 64 and 66 be joined together as one beat, No. 64, with Schuyler French appointed as pathmaster. Carried.

Moved by W. Russell, seconded by C. Kellar, that the following accounts be paid: Willet Pringle for opening road from West Plain south on road without any established road work, \$10.18; Mrs. Levi Doney, as aid for months of March and April, \$5.00; Mr. Richard Lloyd, as aid for month of March, \$5.00. Carried.

Moved and seconded that this Council adjourn to meet on the first Monday in April, at the hour of 10 o'clock a.m. Carried.

PATHMASTERS, 1915.

The Fighting Hope

Novelized by
VIRGINIA LEILA WENTZ

From the Play by
WILLIAM J. HURLBURT

Copyright, 1911, by American Press Association

Temple's eye had caught the portrait of his mother over the mantel. His mood suddenly veered to downright seriousness.

"Craven, I offered Crane \$10,000 to get some tangible proof from Brady's office. But I'd give a million. I'd give every cent I've got to stand clear and be recognized as honest. Why, I tell you, it's hell! I tell you I've worked, worked all my life, worked hard to build up my career on honest, clean lines. You know it. I've turned my back to crooked ways when they were easily accessible, and now—I'm accused of being a thief, the dirtiest sort of a thief, the man who shoulders his crime on another." The muscles of his mouth twitched a bit; he felt his

control slipping away, so he turned abruptly on his heel and averted his face.

The grim lawyer crossed over to lay his hand with almost a woman's tenderness on the big shoulder of his friend, and his voice broke with a suspicion of huskiness as he muttered:

"Steady, old man, steady. We'll kick clear of it all yet."

When Temple spoke again it was in his customary even tone:

"Craven, it seems to me that if Granger certified that check he didn't do it for mere love. Must have received something in return, eh?"

"Something in return?" said the lawyer dryly. "Sure, and a big something at that. It was worth it."

"What do you suppose he did it with, then?"

The lawyer shrugged his shoulders. "The papers said he had a wife, I remember. Ever see her?"

"Never did," said Craven laconically. "Suppose she's extravagant?"

"Superfluous question," grunted Craven. "They all are." Craven was sixty and a bachelor by instinct, one might even say by heredity, for his father had succeeded in escaping matrimony until close upon fifty-two.

Temple smiled indulgently and began elaborating his new idea. "It has occurred to me that if we could establish that Granger has been spending or investing large sums of money lately it would help our cause. That's why I mentioned his wife."

Before he vouchsafed to reply the cynical old lawyer walked across the room and helped himself to a peg of brandy and soda.

"Your premise is all right, Temple," he sneered, "but your conclusion is sappy, asinine. We'll try to find out if he spent money, sure. But we won't waste time in trying to find out if he spent it on his wife. The great

the way to fall as completely in love with his new secretary as Amadis of Gaul or Aucassin of Beaucaire or any other hero of romance you may choose to mention. Even in the first few days he had found himself thinking more of her in a personal way than he had ever thought of any woman. He was not the fashion of man to whom women in general appealed—not that he was wanting in a certain admiration for them or in reverence, but his early life had been devoted to his mother and to his career, so that during the days when a man usually chooses a wife Temple had been too occupied to seek for one. Later—well, somehow he had not met with any one who had quickened the romance that was in him.

For at heart this cool, collected man of finance was romantic. He was more; he was an idealist. He was the sort of man who would husband to his original mate or none.

Unconsciously he made constant little discoveries in Anna—most charming yields of new regions of intelligence, new points of humor, unexpected fountains of emotion, unfathomable depths of womanliness. Her eyes and her hair pleased him; her slim, firm, delicate hands—No; he repudiated that. It was herself—her inimitable self.

And as he felt the excellencies and beauties of her nature more and more he felt the absorbing power of his own manhood to make them his own. She bloomed for him the flower of fancies, but the seeds lay in his own heart; she seemed an exhalation from his own hidden sources. His mother possessed the same ladyhood. At Anna's age his own mother must have been like her, he thought, the stirrer in a man of noble passions, the allayer of others. Life partnership with such women promised not gratifications merely, but satisfactions.

Life partnership and love! They were thoughts now neither for noon nor her presence. With a man like Burton Temple everything had its time and place. He must clear his good name first. That was the imperative duty on hand.

As the result of the gradual recognition of the state of his own feelings, there had come about increased activity in his work against Granger. The reward to Crane, should he succeed in securing some scrap of evidence from Brady, had been raised to \$25,000. The detective bureau had been offered a fabulous sum for proof that Granger had invested any large amount of money; that he had been a big purchaser of stock in any company, or that he was tangled up with some woman besides his wife. No means that a daring, shrewd fighter could use had been overlooked.

And so, all unconsciously—oh, the little pathetic game of human cross purposes at which fate, the flinty hearted, must smile—Anna Granger had become at once her husband's champion and foe. She, for tenderness toward him, was here in Temple's house, fighting desperately to find some evidence that would clear him. Temple, for the vindicated honor which he hoped to lay at his lady's feet, was fighting with equal desperation to keep in prison as a branded thief the man whom he had sent there.

But, as yet, the fight had fetched nothing to either of them.

CHAPTER V.

"THE FATHER OF HER BOYS."

"MRS. MASON" sighed Anna

that very day the evidence I'm seeking might come—a letter, a telegram, a telephone message. Look here, Mrs. Mason!" Opening a drawer of her desk, she took out a handkerchief. One corner of it was tied in a hard knot over many tiny scraps of paper.

"As Mr. Temple was leaving the room just before you came in he tore up this letter and threw it in the wastebasket, you understand? You ask me often why I am so white in the mornings when I come down to breakfast. Well, it's because I haven't slept. It's

because I've been passing the night trying to piece together just such scraps as these. Always—always with no result.

"Nothing works against him. Everything—every little bit of evidence works for him. A little side light on his splendid fighting qualities here; another on some unknown patrician act of kindness to some fellow being there. Oh, it's horrible, horrible! As I say, the whole of life seems to have got mixed—jumbled. Yet I must go on hoping against hope for the children's sake."

"Dearie, I know what I'll do. I'll run out myself tomorrow and see them and fetch you back direct word. Would you like it?"

For reply, in an abandon of gratefulness, Anna drew the elder woman down to her and kissed her again and again.

That afternoon, taking a stroll in the garden, Anna's heart felt lighter, and her dimples stirred feebly, remembering Mrs. Mason's promise.

"Tomorrow," she said softly, stopping for a second before a rosebush

WILL JONES

TOGETHER THEY EXTRACTED THE SKIRT.

and leaning her cheek down to one of the Gloire de Dijon triumphs. "Oh, tomorrow, please come quickly!"

A thorn caught her skirt as she was in the act of moving on.

"May I help?" asked Burton Temple, advancing. Unknown to her he had been reading in the little vine covered pagoda opposite, Cato at his feet.

Together they extracted the skirt, a fragile texture transparent with lace, a faint perfume in it. He noticed that she wore a porte bonheur on her arm with a turquoise in it. It made the skin look white, or the skin made it look blue. The petty common service broke the spell of formality which usually existed between them in the library.

"Are you going farther down the path? May I walk with you?" he asked, and, having received the assent

enchanted palaces. When I wish child the palace of enchantment in the future, the mysterious, ineffable future when I should be grown when I should be a man, when world would be my garden, the w and life and all their riches mine explore, to adventure in. And, oh, people by whom the world and the ture were inhabited, the cavalca knights, the lovely princesses! I and glory and all manner of roms I had them for the wishing. Did ever have such an enchanted pa-

Miss Dale?" asked he whimsically.

"Yes," acquiesced she softly, fa in with his mood, the sympathy bond which always asserted t when she was not on guard, draw her once again. "Oh, yes; I, had my enchanted palace, a many naced palace built of gold and sl ivory, alabaster and mother of p the fountains in its courts ran p perfumed waters." Her voice tre off dreamily, and Temple thrilled t the music of it. "And its pleasur was an orchard of pomegranates. had no need to spare one's colors, know." She turned to him with adorable smile.

"I know." He was at one with now, responding intuitively to the of her emotions. "And the stars their courses to fight for you, and winds of heaven vied with each o to prosper your galleons—wasn't it that?" He looked at her; she scarcely listening; she was watcl the sunlight catching on the tops the Palisades. It was just as well was safer in his inspection of her s

"Uh-huh! Like that," she said, ears mechanically following his wo "I dare say," she went on musingly must be that we pass the enchar palace while we are asleep. Sur at first, it is before us—we can se glistening in the distance, like peaks yonder. We shall reach it morrow, next month, next year. then one morning we wake up ar and it is behind us. We've passed and we can't turn back. We must on." Her voice ended in a little l sob.

The sight of a tear trembling on lashes cost Burton Temple a hund conflicts with himself. He felt a s den warmth behind his eyes and his throat. All he did, however, t to look big, hold his tongue and e the dead their enforced responsibl

"I—I'm not often agitated," s Anna, rising, with an odd, sta smile, "and you must pardon me t display of oversentiment." But fore he could have spoken: "I m really go in now. I've promised M Mason to play a game of pachisi, cribbage, or something," she falter So Temple, elaborately commiserati escorted her up the red gravel path.

Anna was growing excessively easy. For quite two hours now sh been anxiously expecting Mrs. Maso return from Westfield. What could the matter? At the very least it m be the measles. Finally, however, l elder friend came in smilingly, disar ing all fears.

"And how's the new nurse gett on with them? Does she make Rob wear his rubbers on wet days? Is cold quite gone? Is Harold's fin well again? Have they hid that b rid penknife?" Anna was untu Mrs. Mason's veil and pouring out l questions in a torrent.

Mrs. Mason assured her that the bc were both well and happy, that i

gan elaborating his new idea. "It has occurred to me that if we could establish that Granger has been spending or investing large sums of money lately it would help our cause. That's why I mentioned his wife."

Before he vouchsafed to reply the cynical old lawyer walked across the room and helped himself to a peg of brandy and soda.

"Your premise is all right, Temple," he sneered, "but your conclusion is sappy, asinine. We'll try to find out if he spent money, sure. But we won't waste time in trying to find out if he spent it on his wife. The great trouble with you is that you're romantic."

Temple nodded comprehensively, the odd, quizzical, boyish uplift coming to his eyebrows again notwithstanding.

"Dare say you're right," said he simply.

"Of course it was a noble and high minded supposition on your part," grinned the bachelor, "and, having the marriage germ in your system, it was to be expected. You haven't a wife, so you naturally fancy the money would be spent on one. Granger has a wife. He naturally spends it on somebody else. Each man turns to the thing he doesn't possess."

Temple nodded again. "Well, when you go into town on Monday, get the still hunt started for the woman, will you, old man?"

"Sure, you bet your life. But," he called back over his shoulder, as he was leaving the room, "we won't hunt for her in Westfield, N. J., where Granger's home is; we'll hunt for her in West Forty-third street, New York."

"And this wife of Granger's," murmured Temple, left to himself, "I suppose she has faith in him; they all have. I dare say it's she who's working behind this plan to get his pardon; doubtless she's somewhere now, praying for him, waiting for him to come back to her vindicated, an honest man. And I? Well, I'm fighting to prove his conviction just, and there you are! Queer little muddle it is, after all, this play of life. I wonder sometimes if the great Eye mustn't get tired of it and the great Ear wearied of it. I wonder!"

A light, firm knock at the door caused Temple to wake from his reverie. His new secretary entered, ready for work.

From the first days of his association with the Gotham Trust company in an inconsequential capacity to the later days when he had risen to its presidency, allies and rivals had found in Burton Temple a personal humility that was charming, but underneath it fighting qualities that were terrible. He had the gentleness of a lamb and the strength of a lion.

Immediately Anna Granger had recognized the second of these qualities. Now, after some weeks of daily work with him, in the gradual unveiling of the man's personality, she was coming to a sense of the first. Her feelings and judgments about her host were beginning to pulse through her mind with an energy that she seemed powerless to arrest. They did not make her happy; far from it, but they quickened and intensified all the acts of thinking and living.

Usually, however, she succeeded in recapturing herself, in beating back the thoughts which, like troops on a doubtful field, appeared to be carrying her into the ambushes and strongholds of an enemy; she was impatient and scornful of them.

As to Temple himself, maybe he didn't know it, but already he was in

had become at once her husband's champion and foe. She, for tenderness toward him, was here in Temple's house, fighting desperately to find some evidence that would clear him. Temple, for the vindicated honor which he hoped to lay at his lady's feet, was fighting with equal desperation to keep in prison as a branded thief the man whom he had sent there.

But, as yet, the fight had fetched nothing to either of them.

CHAPTER V.

"THE FATHER OF HER BOYS."

"MRS. MASON," sighed Anna wearily one day. "Here I've been for nearly a month and I've found out nothing. I don't believe I ever will find out anything of myself against Mr. Temple." The housekeeper started and eyed her curiously.

"Even if you don't find out anything, dearie," she said stolidly, "you may be pretty certain that your husband will be set free. Mr. Temple may be indicted now any day, and everybody, all the papers, say the circumstantial evidence is so strong that he must be convicted. He's surely guilty." Mrs. Mason, as all who knew her were aware, once having formed an opinion, held to it.

"I don't want Robert cleared on circumstantial evidence," protested Anna. "That's not what I'm making this fight for. I know what public opinion is. It's fickle; it cries 'Hosannah!' on Palm Sunday; it cries 'Crucify!' on Good Friday. I know the sway of the press can make or unmake a man. Just now it's making Robert and breaking Mr. Temple, but after the clamor will come doubt. I want the proof of Robert's innocence in my own hands. I don't want any sentimental vindication for the father of my boys."

The father of her boys! Yes, it had come to be just that. Unconsciously she had said it. To keep herself to her duty she had fallen back on that last reserve of a woman's strength, her mother love.

And how hungry she was growing for them, these boys of hers! "Oh, I need them," she exclaimed in a sudden outburst—"I need them! Do you know, without them even my prayers have come to be stricken and palsied things. Without them the great scheme of the universe seems to have got grotesquely mixed, irrationally jumbled. With a child in her arms a woman feels always less like a speck of sand under the eye of the Infinite, the incomprehensible. It's the unbreakable link of the Human Son binding us to the feet of God, I suppose." Anna leaned forward over her machine and buried her head in her arms.

A light was dawning upon Mrs. Mason—a light which she dreaded. She came over and stroked the buried head.

"What beautiful hair you have, child!" she said fatuously, not knowing what else to say.

"Uh-huh!" murmured the young woman whimsically. "It's pleasant to feel soft and smooth, isn't it, yet offering a slight resistance to stroking? It's modern, independent hair."

This mood would never do. The prim New Englander saw it. "I say, Anna, what you need is to have a little visit with your children. Mr. Temple will excuse you for a day, I know. You can run out to see them, and—"

"Oh, but I can't—I can't, you see," cried Anna in an extremity of desire and duty. "A day? Why, just in

ple, advancing. Unknown to her he had been reading in the little vine covered pagoda opposite, Cato at his feet.

Together they extracted the skirt, a fragile texture transparent with lace, a faint perfume in it. He noticed that she wore a porte bonheur on her arm with a turquoise in it. It made the skin look white, or the skin made it look blue. The petty common service broke the spell of formality which usually existed between them in the library.

"Are you going farther down the path? May I walk with you?" he asked, and, having received the assent of her head and a nonchalant "If you wish," he began:

"Do you know what I was thinking about, Miss Dale, as I sat there in the pagoda? I was wondering where I had met you before. Since the very first day you came I have often wondered that. I have seen you before—oh, no, there is no doubt about it—but where I can't recall."

"In some other incarnation, I dare say," laughed she. "Was it when we were swinging from trees or not so long ago as that? Could it?—yes, she would tempt the fates and be downright courageous—"could it have been in the days when I was in the Exchange building. One meets so many"—

"The Exchange building? Ah, precisely! I recall it all now, and how I used to find myself unwittingly looking for you after that first day. But I was called south, and when I came back you had vanished." He spoke reminiscently.

"The first day? I don't quite understand," queried she.

"I was coming down in the elevator, hurried to death, my mind in a frightful state of turmoil. I found you watching me from some crowded corner, and I looked directly into your eyes." He studied her now with a smile serious and tender. "I looked, and it was like bathing one's face in a pool of spring water after a hot journey," he ended simply.

It came back with such unmistakable vividness to Anna that she spoke spontaneously:

"You did look worried."

"Oh, you remember, too?" he cried. "I can't tell you how glad that makes me. I couldn't get you out of my mind somehow. You see, I never did get you out of my mind. Some faces stay with us. Yours stayed."

The woman beside him had become very grave, feeling the beat of her pulse quicken with the distant surge of a strange joy, a joy indistinct as the tremor of an unrisen sun, yet all pervasive. Realizing her danger, deftly she veered her mood.

"Yes, I passed our old elevator boy on the street a few months ago," she remarked casually, stooping to pat the mastiff's head. "I remembered his face, too, though it had been over a decade since I saw him."

The man's face was rueful as he nodded appreciation of her tactics.

Below them was the broad expanse of the Hudson, scintillating as a sapphire in the glow of the summer afternoon. A yachting party steaming up river waved hats and handkerchiefs at them in pure good fellowship. It seemed good to be alive. Temple pulled two chairs under the shade of the trees, and they sat down. In the distance the cliffs of the Palisades rose and beckoned alluringly.

"Do you know what I used to call them, those cliffs?" said he, seeing his companion's eyes upon them. "Mr

been anxiously expecting Mrs. Mason return from Westfield. What could the matter? At the very least it must be the measles. Finally, however, elder friend came in smilingly, disingul friends.

"And how's the new nurse get on with them? Does she make Ro wear his rubbers on wet days? Is cold quite gone? Is Harold's fine well again? Have they hid that rid penknife?" Anna was unt Mrs. Mason's veil and pouring out questions in a torrent.

Mrs. Mason assured her that the were both well and happy, that new nurse was doing beautifully, that, except for a few hours when rascals had her locked in the chick house, she was having a fine time.

"Oh, she won't mind an inconsequential thing like the chicken house," laughed Anna, handing Mrs. Mason veil pins, "when once she's used those boys. They locked their mo in one day, and I had to spank the poor little dears. Oh, but I'm sick longing for them—sick!"

"I know, dearie," soothed Mrs. son, patting her on the back. "I've something else to tell you. couldn't guess why I was so late coming back? No? Well, I've been up see Robert."

"You have!" Anna started never slightly. "Is—is he well? Is he keeping up? What did he think about being here?"

"Oh, he's well, and he's keeping. They're all very good to him. I feel he is up there through a misriage of justice. They treat him kindly. They've made him what they a 'trusty.'"

Anna was listening with strained tension.

"You explained to him, didn't you, Mrs. Mason? You made it clear: why I left home? You made him understand that I am in a position to find out the truth that will convict the man who has done this thing?"

Mrs. Mason plucked several imaginary threads off her skirts to hide confusion.

"At first, you know," went on Anna. "I thought it best not to let him know about my having left home. I knew he would worry about the boys. A few days ago I managed to get it word. I felt the time had come. Now, what does he say?"

Mrs. Mason still faltered. Her conscience would not permit her to less than the whole truth; nevertheless, she longed for some fashion which to put it gently.

"Well, he said, dear—he turned white and said he didn't want you remain in this house. Said it did look quite right; that he'd rather have you home with the children than be in Temple's house."

Anna smiled indulgently. "Poor boy! His afraid the work will prove too hard for me. It won't. I'll face the crime yet, though it may break near." The final words were almost choked. She walked across to the window and stood staring out at the prison there. It was a little trick she had learned whenever she wished steel herself in the fight she had undertaken. Presently she turned back a dumb, pathetic perplexity in her gray eye.

"Oh, if I could get back to the condition in which I entered this house the clear air where there are no scurries, no mysteries!"

She spoke half to herself, but words fell like little whips on Mrs. Mason's ears.

"What obscurities, what mysteries are you talking of?" she said stern

enchanted palaces. When I was a child the palace of enchantment meant the future, the mysterious, ineffable future when I should be grown up, when I should be a man, when the world would be my garden, the world and life and all their riches mine to explore, to adventure in. And, oh, the people by whom the world and the future were inhabited, the cavalcading nights, the lovely princesses! Love and glory and all manner of romance, had them for the wishing. Did you ever have such an enchanted palace, Miss Dale?" asked he whimsically.

"Yes," acquiesced she softly, falling in with his mood, the sympathetic and which always asserted itself when she was not on guard, drawing her once again. "Oh, yes; I, too, I had my enchanted palace, a many pined palace built of gold and silver, of ivory, alabaster and mother of pearl; fountains in its courts ran with perfumed waters." Her voice trailed off dreamily, and Temple thrilled with the music of it. "And its pleasure was an orchard of pomegranates. One did not need to spare one's colors, you know." She turned to him with an adorable smile.

"I know." He was at one with her now, responding intuitively to the play of her emotions. "And the stars left their courses to fight for you, and the lands of heaven vied with each other to prosper your galleons—wasn't it like that?" He looked at her; she was scarcely listening; she was watching a sunlight catching on the tops of the Palisades. It was just as well; he is safer in his inspection of her so. "Uh-huh! Like that," she said, her eyes mechanically following his words. "dare say," she went on musingly, "it is just as that we pass the enchanted place while we are asleep. Surely, first, it is before us—we can see it stening in the distance, like the peaks yonder. We shall reach it tomorrow, next month, next year. And one morning we wake up and—d it is behind us. We've passed it, and we can't turn back. We must go." Her voice ended in a little half gasp.

The sight of a tear trembling on her cheek cost Burton Temple a hundred thoughts of himself. He felt a sudden warmth behind his eyes and in his throat. All he did, however, was to look big, hold his tongue and envy the dead their enforced responsibility. "I—I'm not often agitated," said she, rising, with an odd, starry gleam, "and you must pardon me that play of oversentiment." But before he could have spoken: "I must go in now. I've promised Mrs. Mason to play a game of pachtisi, or bbbage, or something," she faltered. Temple, elaborately commiserating, escorted her up the red gravel path.

Anna was growing excessively uneasy. For quite two hours now she'd been anxiously expecting Mrs. Mason's return from Westfield. What could be the matter? At the very least it must be the measles. Finally, however, her friend came in smilingly, disarming all fears.

And how's the new nurse getting with them? Does she make Robbie or his rubbers on wet days? Is his hair quite gone? Is Harold's finger all again? Have they hid that horpenknife? Anna was untangling Mrs. Mason's veil and pouring out her questions in a torrent.

Mrs. Mason assured her that the boys were both well and happy, that the

"I don't understand."

"No more do I—no more do I!" Anna twisted and untwisted her hands in silence for a moment. "Only this I know," she said at last. "When I came here I could harden my heart against the man with whom I had come to wage war. I could continually remember his responsibility for Robert's imprisonment. Oh, I could fight fairly and squarely. But now—"

"It's strange," she went on reflectively—"strange. Now I always have to bring myself up with a deliberate effort. I have to think to hate him—I don't hate him intuitively any more. There's something about him"—her voice softened oddly—"I can't describe it. He's strong, somehow. He's big and deep and earnest and illimitably strong. He draws one."

CHAPTER VI. DUTY AND DESIRE.

"ANNA GRANGER, I'm ashamed of you, ashamed! I could tell you what the trouble is. Oh, it's a degenerate age! Duty and desire messed up till you don't know which is which. You can shuffle them to suit your conscience—if by reason of a few decent ancestors a person happens to have a conscience! Don't you think I've seen this thing coming, Anna? Don't you think I've been deploring the situation, doing my best to straighten it out? Why have I been harping on the children, the children, the children? Because I saw they were the only stronghold you had left to fall back upon; because I saw you were already forgetting your poor martyr husband. Oh, I've seen this man's eyes following you with the look that can only mean one thing! I've seen—"

"Mrs. Mason, it isn't true, it isn't true!" Anna recoiled in horror. "Is it kind, is it bearable that you should say such things to me? I have not deserved them. No, no, I have not! What right have you? I can't protect myself, I can't escape you. But"—Her voice shook. There was in it a passion of anger, pain, isolation and yet something else, the note of something newborn and transforming.

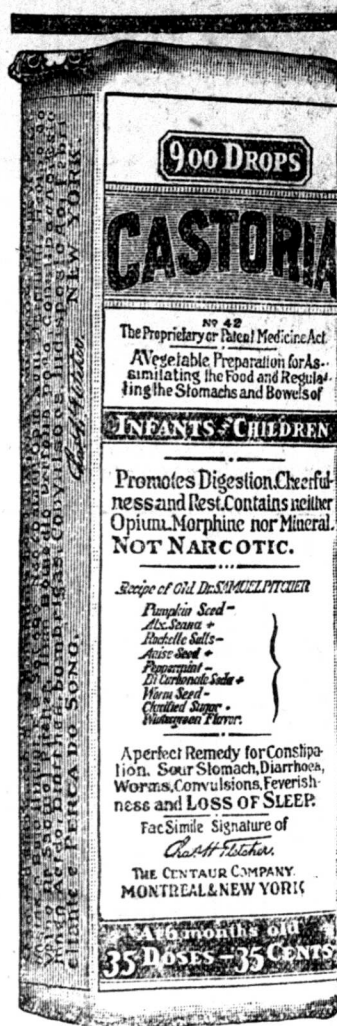

"What right?" repeated Mrs. Mason in sharp tones of astonishment. "The right of duty, the right of one honest woman speaking to another whom she wishes to keep honest."

The stern old Puritan housekeeper had made Robert Granger stand for a leading principle. She was a woman of little individuality, quite far away from her own generation. For the most part she acted on cut and dried principles; even her impulses were automatic impulses, dating back to her foremothers. She had been brought up with the view that all behavior was right or wrong, correct or incorrect, as if it were not much else beside these, as if between black and white there were not many colors, all the colors of the spectrum, in fact.

And so to the bowed young woman before her she continued with her oracular mottoes on right living and sure results, plain, one sided duty. Anna was vaguely conscious that Sir Oracle was still in among the living. She heard no particular word, just the pattering murmur of word upon word ponderously delivered.

"A letter for you, sir, brought by messenger," said the butler, presenting an envelope to Burton Temple.

"From the detective bureau," commented he, tearing it open. And Cra-

Ten Stick Island.

In the Southwest bay, in the New Hebrides group, there is a small wooded island of considerable height above the sea, although only a few hundred yards in circumference. The story of its acquisition is a curious one. Southwest bay used to be considered a good place for target practice by the British men of war on patrol duty there, and this small inlet was used as a target so frequently that it seemed in danger of being gradually shot away. The chief who owned it protested and wanted compensation. The captain of a man-of-war who understood the natives knew that these claims would be a ceaseless source of blackmail unless they were settled once for all, so he bought the island for the British crown, paying ten sticks of tobacco for it, and every one was satisfied. The place since then has been known as "Ten Stick Island."—London Standard.

Isn't a Loaf Always Bread?

"How is Robert getting on at college?" asked the minister, who was being entertained at dinner.

"Splendidly," said the proud father, who then went on to tell of his son's various social, athletic and scholastic successes, and the minister said it was a fine thing to be college bred.

That evening little James, who had been an interested listener, said: "When

FOR THE CUISINE.

How to Serve Cheese Daintily and With Satisfaction.

The housekeeper of economical mind should not fail to make a thorough study of cheeses. They go far toward giving zest to a meal and are really nourishing. They contain nitrogenous matter and are therefore a muscle or tissue building food. Cheese is a concentrated food, however, and should be eaten in small quantities as a relish rather than as the fundamental element of a meat.

The common Canadian cheese is generally supposed to be the most digestible of its family. In reality it is not so easily digested as those which are known as ripe or old cheeses, such as Camembert, Roquefort and Brie. The housewife of systematic habits will stock up her pantry with different cheeses for different purposes. For flavoring, making rarebits and for cooked dishes she will use a good grade of cheese or Parmesan. The latter can be bought readily grated in bottles.

The best cheese to serve with salad are the medium rich, such as pineapple, Edam, English dairy and Canadian full cream. The Neuchâtel or cream cheese is also served with salad, but is less easy to digest than are the medium rich cheeses mentioned before.

The most popular after dinner cheeses are Roquefort, Camembert

Final, however, her older friend came in smilingly, disarming all fears.

"And how's the new nurse getting on with them? Does she make Robbie wear his rubbers on wet days? Is his old quite gone? Is Harold's finger well again? Have they hid that horrid penknife?" Anna was untying Mrs. Mason's veil and pouring out her questions in a torrent.

Mrs. Mason assured her that the boys were both well and happy, that the new nurse was doing beautifully and that, except for a few hours when the scalds had her locked in the chicken house, she was having a fine time.

"Oh, she won't mind an inconsequential thing like the chicken house," sighed Anna, handing Mrs. Mason her all pins, "when once she's used to those boys. They locked their mother one day, and I had to spank them, or little dears. Oh, but I'm sick with longing for them—sick!"

"I know, dearie," soothed Mrs. Mason, patting her on the back. "But we've something else to tell you. You wouldn't guess why I was so late coming back? No? Well, I've been up to see Robert."

"You have?" Anna started never so lightly. "Is—is he well? Is he keeping up? What did he think about my being here?"

"Oh, he's well, and he's keeping up. They're all very good to him. They feel he is up there through a miscarriage of justice. They treat him kindly. They've made him what they call 'trusty.'"

Anna was listening with strained attention.

"You explained to him, didn't you, Mrs. Mason? You made it clear just by I left home? You made him understand that I am in a position here and find out the truth that will convict a man who has done this thing?" Mrs. Mason plucked several imaginary threads off her skirts to hide her confusion.

"At first, you know," went on Anna, "I thought it best not to let him know about my having left home. I knew I would worry about the boys. But few days ago I managed to get him alone. I felt the time had come. And w, what does he say?"

Mrs. Mason still faltered. Her conscience would not permit her to tell less than the whole truth; nevertheless, she longed for some fashion in which to put it gently.

"Well, he said, dear—he turned aside and said he didn't want you to remain in this house. Said it didn't look quite right; that he'd rather have you home with the children than here in Temple's house."

Anna smiled indulgently. "Poor boy! He's afraid the work will prove too hard for me. It won't. I'll fasten a crime yet, though it may break my heart." The final words were almost choked. She walked across to the window and stood staring out at the grimison there. It was a little trick she'd learned whenever she wished to steel herself in the fight she had undertaken. Presently she turned back—dumb, pathetic perplexity in each eye.

"Oh, if I could get back to the condition in which I entered this house—clear air where there are no obstructions, no mysteries!"—she spoke half to herself, but the words fell like little whips on Mrs. Mason's ears.

"What obscurities, what mysteries are you talking of?" she said sternly.

oracular mottoes on right living and sure results, plain, one sided duty. Anna was vaguely conscious that Sir Oracle was still in among the living. She heard no particular word, just the pattering murmur of word upon word ponderously delivered.

ven, who had been pacing up and down the library excitedly, blurted out:

"Read it; read it. Nothing can come too soon now, I tell you. Your indictment is hanging over your head like the sword of Damocles suspended by a hair."

"We have discovered," read Temple hastily, "the woman for whom party has spent large sums of money, dating from time party is supposed to have received funds. Her name is Rose Fanchon. Party spent a good deal of money on her, but large part invested in New York Central. Securities held in party's own name, but the dividend order makes the dividend payable to the woman. Are preparing other evidence and expect to have something of greater importance soon. Hoping our work has been satisfactory and that we shall speedily be in a position to give you everything you desire, very truly, etc.," rattled off Temple.

"You know," commented Craven, rubbing his lean jaw with appreciation. "I'm beginning to like that fellow Granger. Slick pup—\$80,000 in New York Central and the dividend only to Rosie! Kept a big, stout rope on his benefaction, didn't he?"

"Looks good, eh?" said Temple cheerfully, tapping the letter.

"Looks good, yes, but you've got to have something that does more than 'look good,' old man. You've got to have a knockout piece of evidence. Brady's going to go on the stand and perjure himself; see if he doesn't."

"He'd perjure somebody else if he could invent the crime," agreed Temple bitterly.

A bitter blow, however, could never endure long with Burton Temple. The boy in him would never be downed. He crossed to his pipe rack, extracted his favorite meerschaum and was soon leaning back luxuriously in his chair while Craven scratched away with his goose quill.

(To be Continued.)

place since then has been known as "Ten Stick Island."—London Standard.

Isn't a Loaf Always Bread?

"How is Robert getting on at college?" asked the minister, who was being entertained at dinner.

"Splendidly," said the proud father, who then went on to tell of his son's various social, athletic and scholastic successes, and the minister said it was a fine thing to be college bred.

That evening little James, who had been an interested listener, said, "Papa, what did Mr. Brown mean by 'college bred'?"

"Oh, that," said papa, who had been looking over his son's bills, "is a four years' loaf."—Ladies' Home Journal.

Scotch of Danzig.

One of the largest Scottish colonies of the continent formerly existed at Danzig. In the last decade of the fourteenth century a number of Scottish knights journeyed to Danzig to help in the crusade of the Teutonic order against the Lithuanian heathens, and one of the city gates—now known as the Hohe Thor—was christened the Douglas Thor, after Lord William Douglas, who was slain there.—London Spectator.

different cheeses for different purposes. For flavoring, making rarebits and for cooked dishes she will use a good grade of cheese or Parmesan. The latter can be bought ready grated in bottles.

The best cheese to serve with salad are the medium rich, such as pineapple, Edam, English dairy and Canadian full cream. The Neuchâtel or cream cheese is also served with salad, but is less easy to digest than are the medium rich cheeses mentioned before.

The most popular after dinner cheeses are Roquefort, Camembert, Stilton, Limburger, Brie, Schweitzer and Gorgonzola, all very rich and ripe. Presumably they are imported cheeses. Quite often, however, they are made in Canada and it is found they give just as good satisfaction as the imported article.

When cheese is served both with the salad and with the coffee course a very dainty accompaniment for green salad with French dressing is this: Spread thin saltines with a mixture of grated Canadian cheese and butter in the proportion of two-tablespoonfuls of cheese to one of butter. Dust lightly with cayenne pepper and stand for a moment or so in a quick oven. For cheese served with the final dinner course there is nothing more appropriate than hard crackers split and toasted a golden brown.

Modernize your Kitchen

One by one the bugbears of housekeeping are being put to rout through the instrumentality of gas. The modern kitchen—which means the all-gas kitchen—is now a recognized part of the up-to-date home. The all-gas kitchen lightens labor. It means a clean, wholesome, sanitary kitchen, as there is no coal dust or ashes to be spread around, and it becomes a real pleasure to work in it. Every housewife desires to cook and heat water in the most economical way, in the quickest, most dependable way, with the least possible work.

The All-Gas way is the solution to the problem.

The hot weather is here now and if you want a cool, comfortable kitchen this summer come and select your Gas Range and Water Heater now. We have ranges at all prices.

The Cabbage Maggot.

The cabbage maggot is the principal
handicap in the production of early
cabbage and cauliflower. The insect
is present in most communities where
early cabbage is grown and occasion-
ally causes extensive damage to this
crop.

Of the insecticides that are employed
to destroy maggots about the roots of
the plants carbolic acid emulsion has
generally been regarded as the most
efficient. Tests with the emulsion at
recommended strengths have demon-
strated that it will prevent the hatch-
ing of the eggs and is fatal to the
younger stages of the larvae. It may,
however, cause injury to young seed-
lings and is not a safe remedy for the
treatment of plants recently set in the
field.

The value of tar pads, or hexagonal
tar paper collars, for the purpose of

CABBAGE MAGGOT.

preventing the adult of the cabbage
maggot from placing eggs about the
stems of the plants has been demon-
strated, but in spite of its effectiveness
this method of protecting cabbage has
not been generally adopted by truck
growers. Tar pads will protect early
cabbage from the pest at a cost of
about \$1.40 per thousand plants.
Truck growers, who are subject to
losses by the cabbage maggot, are

CROWN GALL AND HAIRY ROOT

Rules by Which These Diseases May
Be Reduced to a Minimum.

[Prepared by M. T. Cook, plant pathol-
ogist, New Jersey experiment station.]

That crown gall and hairy root are
serious diseases cannot be doubted.
That they may be much more serious
in some localities than others and
upon some plants than on others is
equally true. Heavy applications of
fertilizer tend to reduce the injurious
effects on many varieties, but it would
be more profitable for the grower to
feed healthy plants than diseased
plants.

The great difference of opinion con-
cerning these diseases expressed by
various workers in the past can be
readily explained by our increasing
knowledge of the subject. It is very
generally conceded that the distribu-
tion of these diseases is largely due to
nursery stock; that cane fruits, espe-

APPLE STOCK AFFECTED WITH CROWN GALL
cially red raspberries, are notorious
carriers of these diseases, and that cer-
tain varieties of apple, such as Wealthy,
Yellow Transparent, Wolf River, Ben
Davis and Northern Spy, are especially
susceptible. Certain varieties of grapes
and berries are also more susceptible
than others.

These diseases are so widely dis-
tributed that their eradication is prac-
tically impossible, but they can be
very greatly reduced. The buyer of a
tree is entitled to a healthy tree, and
no fruit grower can afford to set in-
ferior or diseased plants. The inspec-
tion laws in the different states are
becoming more and more strict every
year with stock likely to carry these
diseases. By observing the following
rules these diseases can be reduced to
a minimum:

Nurserymen should—

First.—Grow their stock on ground
as nearly free from these diseases as
possible. Never use ground which has
recently been set with cane fruits.

Second.—Avoid injuring the young
trees by cultivation.

Third.—Use the best grade, healthy

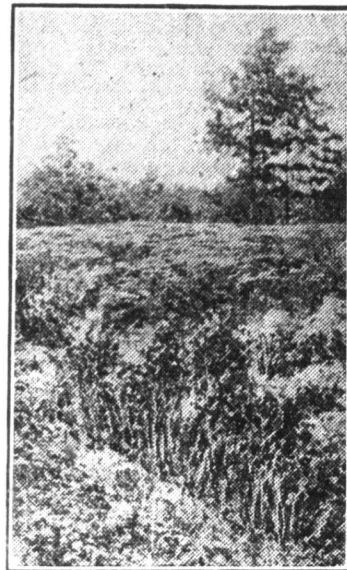

Making the Little Farm Pay

By C. C. BOWSFIELD

Miss Annie L. Glidden of Dekalb,
Ill., is one of many women who are
successful in farm management. She
owns and manages thirty acres a mile
from town and is making a record of
which her friends speak with pride.

Miss Glidden is a city girl, educated
and refined, belonging to one of the
most prominent families in northern
Illinois. She inherited from her uncle,
Joseph F. Glidden, enough capital to
enable her to buy thirty acres of land
at \$200 an acre and equip this little
farm with live stock and machinery.
She did not start the enterprise in a
haphazard way, but went about it
systematically after careful study. It
seemed best to her to diversify her
products, so that she would not be de-
pendent on a single crop.

She keeps a large part of the farm
in alfalfa and has a record of making
\$02.50 per acre from this legume in
one season, there being three cuttings
of the plant. Few people in northern
Illinois have reached these figures with
alfalfa. Five tons to the acre in three
cuttings is considered above the aver-
age, and it is not best to cut the plant
more frequently than this. At \$18 this
makes a return of \$90 per acre. All
who know anything about farm earn-
ings will understand that this is far

A LARGE PART OF THE FARM IS KEPT IN
ALFALFA.

above the average, but similar results
can be obtained where intelligent care
is given to the cultivation of alfalfa.

Miss Glidden at the outset was ambi-
tious not only to make her farm a
financial success, but to demonstrate
the wisdom of having a rotative
scheme and of selecting a variety of
products for which there is a steady
cash demand in provincial towns as
well as in large cities. Much of her
success comes from management along
this line, as she always has two or
three small fields of highly profitable
vegetables.

She also has succeeded fairly well in

MILITARY EFFECTS FOR CHILDREN'S COATS

BROWN STRIPED COAT.

The little coat pictured here is su-
able for the small girl's school war
robe. It is one of the new models of
spring. The material is self strip
brown silk and wool mixture. T
wide collar and deep cuffs are band
with dark brown moire. There is
very wide belt, with a very decorati
application of buttons.

The new coats for children's spring
wear are made in a great variety
attractive styles. Covert cloth, serge
gabardine, poplin and checked fabri
are modish. They are without mu-
elaboration, the trimming being con-
fined to the collar and cuffs. Silks an
satins in white or matching colors a
most frequently used on these. For
outer wear silk and satin coats w
be permissible for dressy occasion
Taffeta, faille and poplin are consid-
ered suitable for these.

Many of the new coats are cut in
short waisted lines. The belt is
characteristic feature. The lower pa
of the coat is given the popular flat
The sleeves are set in as a rule, a
though some examples of the modish
kimono sleeve will be used.

The military influence is seen ev
in these juvenile coats. Many of the
are trimmed with rib, gun metal
silver braid and buttons. Army an
navy colors are favored. One se

skin green and Belgian blue.

Wraps which are very fair imit-
ations of the English topcoat are ca-
ried out in covert cloth. Decorati

CABBAGE MAGGOT.

preventing the adult of the cabbage maggot from placing eggs about the stems of the plants has been demonstrated, but in spite of its effectiveness this method of protecting cabbage has not been generally adopted by truck growers. Tar pads will protect early cabbage from the pest at a cost of about \$1.40 per thousand plants. Truck growers, who are subject to losses by the cabbage maggot, are urged by the New York agricultural experiment station to test the tar pads experimentally as a basis for more extensive operations against this pest.

Silo Pays For Itself.

Thousands of farmers and scientists add their testimony and proclaim positively that the silo pays for itself in one year, that it doubles or even quadruples the value of the feed crop. An acre of good silage will keep a cow or steer one year.

Reversing a Phonograph Record.

A remarkably curious experiment may be performed with any ordinary phonograph. The sound box is reversed so that the needle slopes the other way, enabling the disk to be turned backward by the finger being placed near the center. The effect produced is extremely astonishing. You hear the human voice singing songs backward; you hear the harmony of Wagner backward—plain English sounds like a Chinese language. The most remarkable effect is perhaps to play a chime of bells in this reversed manner. The sound rushes up and up, but there is never a single strike or clash of a bell. The strike on the ear is reversed and is nothing but a sharp "cessation of sound."—Strand Magazine

A Scene Before the Mirror.

What the jungle ladies of Africa lack in clothing they make up in hair adornment. Some styles are pleasing, while others are very grotesque. Their hair combs are made of a very tough wood, and they need be tough, for one of the feminine customs is to put gum all through their hair to keep it in place. A very strong comb is needed to get it apart, but the women contrive somehow to do it, and as time is not money in Africa they are never in a hurry. One is not surprised to learn that sometimes it takes a woman a week to have her hair properly arranged.—Christian Herald

Aftermath.

"Aftermath" is a persistently ill used word. Early July is the time of the "math"—that is, the first mowing of the meadow. The short grass with a sufficiency of rain will grow again, and later will come the "second mow," or "aftermath." The phrase "The storm and its aftermath" seems a favorite with some story writers, but it is difficult to understand how a storm can have a second mowing.

No Place For Letters.

A learned young woman of Boston was spending her vacation in a little country place. To the local bookshop of the village she went one afternoon and made known her mental wants to the clerk:

"I should like the 'Letters of Jane Welsh Carlyle.'"

"I beg your pardon, miss," said the clerk, "but this ain't no postoffice."—New York Globe.

of diseased plants. The inspection laws in the different states are becoming more and more strict every year with stock likely to carry these diseases. By observing the following rules these diseases can be reduced to a minimum:

Nurserymen should—

First.—Grow their stock on ground as nearly free from these diseases as possible. Never use ground which has recently been set with cane fruits.

Second.—Avoid injuring the young trees by cultivation.

Third.—Use the best grade, healthy seedlings for budding and grafting.

Fourth.—Use scions and buds from trees known to be absolutely healthy. The roots, trunk and branches of trees from which the scions are cut should be free from all forms of the disease.

Fifth.—When root gall is prevalent budding is much to be preferred to root grafting, especially with susceptible varieties such as Wealthy.

Sixth.—If root grafting is practiced the following precautions should be taken:

Make close fitting grafts, leaving no exposed cut surfaces.

Wrap each graft well with soft waxed cloth.

Avoid wrapping with waxed string or raffia.

Store root grafts in clean moist sand at temperatures above 32 degrees, but not to exceed 35 to 40 degrees.

Plant as early in spring as soil conditions permit.

Handle grafts carefully in planting so as not to make any wounds upon the roots or disturb the callous formation upon the cut surfaces of scion and stock.

Avoid injury to plants in subsequent cultivation.

Seventh.—Propagate by budding so far as possible the few varieties most susceptible to crown gall and hairy root.

Eighth.—Avoid heavy, wet soils.

Ninth.—Burn all diseased plants. Do not prune the evidently diseased parts and market the stock. The disease may have penetrated farther than you can determine.

The fruit grower should—

First.—Refuse all diseased stock. His time, land and fertilizer are too valuable for him to gamble with diseased plants of any kind.

Second.—Set the plants on land as free as possible from the disease. Avoid land that has been used for cane fruits.

Third.—Never use cane fruits as inter row crops.

Fourth.—Avoid injuring the trees by cultivation so far as is possible.

Fifth.—Keep trees as free from borers and similar pests as possible and paint the wounds made in removing borers with white lead paint or coal tar.

Sixth.—Rotate old orchard and berry lands to grains, potatoes or similar crops if possible.

Peter the Great's "Window."

The city of St. Petersburg (renamed Petrograd by the czar) was founded by Peter the Great in the year 1703. He called it the "window through which he could look out upon Europe."

The Brigand.

Pullman Porter—Boss, yo' sho' am dusty. Passenger (resignedly)—Well, you may brush off about a tickel's worth.—Judge.

More than we use is more than we need and only a burden to the bearer.—Beneca.

can be obtained where intelligent care is given to the cultivation of alfalfa.

Miss Glidden at the outset was ambitious not only to make her farm a financial success, but to demonstrate the wisdom of having a rotative scheme and of selecting a variety of products for which there is a steady cash demand in provincial towns as well as in large cities. Much of her success comes from management along this line, as she always has two or three small fields of highly profitable vegetables.

She also has succeeded fairly well in getting two crops from a patch of ground in one season. This is done by producing lettuce, radishes, peas, beets, etc., in the early part of the summer and following them with sweet corn, peppers, spinach, celery and other vegetables which cannot be planted while there is any danger of frost in the spring. This scheme of growing succession crops can be worked in various ways. Land has to be heavily fertilized in the fall. This and thorough cultivation during the growing period will maintain soil fertility. Miss Glidden varies from her program in such a way that the labor is evenly distributed throughout the year, or at least this point is kept in view, but naturally field work becomes pretty heavy in connection with vegetable growing. She has a paying poultry plant and in a short time will be able to market several beef animals every year.

A farm of thirty acres conducted on this plan will yield an income of \$2,000 or more after paying for the labor required. Naturally some seasons will be better than others and profits will not always be the same, but this energetic young woman has found a system of making her farm pay, and her success with thirty acres has made some of the men folks who have much larger tracts gasp with astonishment. The day has come, in the opinion of agricultural experts, when farms of ten to thirty acres will be made sufficient to occupy the time and talents of highly trained and progressive men and women.

Both in fact and theory farms are becoming smaller, and experts now hold that a fair living income for a family may be gained from one of these small tracts. Ten acres, if wisely managed, will return an annual profit above operating expenses of \$1,500 to \$2,500. Larger places give returns in proportion when the owner has ability and suitable equipment. There are plenty of truck and fruit farms in the United States which can show a yearly revenue of more than \$500 an acre. This only has come about in recent years since the present high level of produce was reached, and therefore many old fashioned farmers who devote themselves to dairies or one or two grain crops are still unaware of what may be accomplished by modern methods.

Painfully Particular.

"If you refuse me this time," he said, "I shall never ask you to be my wife again."

"Oh, please," replied the girl from Boston, "try to use better English. I never have been your wife. Why should you ask me to be your wife again?"—Chicago Herald.

SHILOH
quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

characteristic feature. The lower part of the coat is given the popular flared sleeves are set in as a rule, though some examples of the modified kimono sleeve will be used.

The military influence is seen even in these juvenile coats. Many of them are trimmed with gilt, gun metal, silver braid and buttons. Army and navy colors are favored. One set of models of navy blue, army gray, Russian green and Belgian blue.

Wraps which are very fair imitations of the English topcoat are carried out in covert cloth. Decorative pockets, wide belts and skillfully plied collars and cuffs are features of many covert coats.

Lingerie collars and cuffs are to be very much worn. These will give charming finish to the simple coat. Linen, pique, organdie and lawn are being shown for children's suits and coats.

Using Up Meat Scraps.

A nice pudding may be made with cold meat. Take pieces of mince

EATON'S
Spring & Summer Catalogue
1915

Illustrations include a man in a suit and a woman in a dress, with various text elements and prices.

MILITARY EFFECTS FOR CHILDREN'S COATS.

BROWN STRIPED COAT.

The little coat pictured here is suitable for the small girl's school wardrobe. It is one of the new models for spring. The material is self striped own silk and wool mixture. The high collar and deep cuffs are banded with dark brown moire. There is a very wide belt, with a very decorative application of buttons. The new coats for children's spring are made in a great variety of attractive styles. Covert cloth, serge, hordine, poplin and checked fabrics are modish. They are without much elaboration, the trimming being confined to the collar and cuffs. Silks and tins in white or matching colors are most frequently used on these. For winter wear silk and satin coats will be permissible for dressy occasions. taffeta, faille and poplin are considerably suitable for these.

Many of the new coats are cut on short waisted lines. The belt is a characteristic feature. The lower part of the coat is given the popular flare. The sleeves are set in as a rule, although some examples of the modified mono sleeve will be used. The military influence is seen even in these juvenile coats. Many of them are trimmed with gilt, gun metal or very braid and buttons. Army and navy colors are favored. One sees models of navy blue, army gray, Russian green and Belgian blue. Wraps which are very fair imitations of the English topcoat are carried out in covert cloth. Decorative

cooked beef and lean ham, a quarter of a pound of suet, half a pound of flour, a chopped onion, pepper, salt and a little finely chopped parsley. Rub the chopped suet into the flour, add pepper and salt, meat, onion, parsley, and, if liked, a dash of curry powder. Mix these ingredients, moisten with a little cold stock to make it cling together, but it must not be wet. Place in a greased pudding basin, tie over with a pudding cloth and steam steadily for two hours. Turn out to serve and pour gravy round.

Smart Sleeves.

An additional smartness is imparted to the sleeve of the coat suit by the embroidered clock on the outer side. Either black or colored silk to match the suit may be used for the clock.

MODES OF THE MOMENT.

Cape effects prevail among evening wraps.

Petticoat flouncings are coming into favor again.

Fashion has lost none of her affection for sashes.

Black silk waists appear with high or low collars.

Plain clothes are favorite materials for street costumes.

No frock is smart these days without a military touch.

Flowered silks work out well for the gowns in 1930 style.

The sleeves of the cloth dress should be made of chiffon.

Organdie continues a favorite material for the new neckwear.

Some of the newest skirts are eleven inches from the ground.

With long coat suits the skirts are usually mounted on a yoke.

There is nothing like the white silk petticoat for dancing wear.

HOUSEHOLD HINTS.

When washing windows add a small quantity of bluing to the water. This makes them clearer. Scatter grated white potato over the carpets if you wish to freshen their colors.

When packing away rugs or carpets for any length of time fold in powdered alum and a few moth balls when rolling up.

To remove stains from the tops of zinc kitchen tables use a cloth dipped in vinegar.

In laundering the sheer white collars so much worn use borax instead of starch (a tablespoonful to a quart of water). It leaves them more transparent.

Furniture polish may be made at home after this recipe: Take equal portions of linseed oil, turpentine, vinegar and spirits of wine. Shake well and apply with a linen cloth for cleansing. For polishing use a dry flannel cloth.

When using a double boiler the food will cook more quickly if the water in the outer vessel is salted in the proportion of a fourth of a cupful of salt to a quart of water.

HOUSE SLIPPERS.

A Great Variety of Comfortable Shoes

are worn with house frocks, and, like other shoes, they are usually worn with white or colored stockings.

Mules, with and without heels, are perhaps the most comfortable of all boudoir slippers. They are made of cretonne or ribbon, of quilted satin and of kid. Some of them, too, are made of the lovely embroidered Japanese and Chinese fabrics that are used in various sorts of slippers.

Almost as easy to adjust as the mules are the straw sandals usually made with two cross straps of red cotton that come from China. In spite of the fact that they are as troublesome to get into as mules are easy to get into, all sorts of ribbon slippers persist. They are pretty, that is granted, and that assures them permanence. Sometimes they are shirred at the top on a piece of elastic, and sometimes they are straight at the heel and sides, stiffened with canvas and fitted over the toes. This kind is perhaps the most comfortable, and the addition of ribbons to tie about the ankle makes them more comfortable still.

Then, of course, there is the smart little Turkish slipper embroidered with tinsel and with a silk pompon at the end of its pointed, upturning little toe.

DEBUTANTE'S GOWN

FOR PARTY WEAR.

BLUE EVENING GOWN.

ANY DYSPEPTIC CAN GET WELL

By Taking "Fruit-a-tives"
Says Capt. Swan

Life is very miserable to those who suffer with Indigestion, Dyspepsia, Sour Stomach and Biliousness. This letter from Captain Swan (one of the best known skippers on the Great Lakes) tells how to get quick relief from Stomach Trouble.

PORT BURWELL, ONT., May 8th, 1913.

"A man has a poor chance of living and enjoying life when he cannot eat. That was what was wrong with me. Loss of appetite and indigestion was brought on by Constipation. I have had trouble with these diseases for years. I lost a great deal of flesh and suffered constantly. For the last couple of years, I have taken 'Fruit-a-tives' and have been so pleased with the results that I have recommended them on many occasions to friends and acquaintances. I am sure that 'Fruit-a-tives' have helped me greatly. By following the diet rules and taking 'Fruit-a-tives' according to directions, any person with Dyspepsia will get benefit."

H. SWAN

"Fruit-a-tives" are sold by all dealers at 50c. a box 6 for \$2.50, or trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Marine Insurance.

Marine insurance was practiced in Rome 45 B. C. It was very general in Europe before the discovery of America, and it is altogether probable that the ships of Columbus were insured for their full value.—Boston Globe.

Wise Willie.

Teacher—Willie, why don't you keep your hair combed? Willie—Cause I ain't got no comb. Teacher—Why don't you ask your mother to buy one? Willie—Cause then I'd have to keep my hair combed.—Dallas News.

Perhaps He Would.

"I led my class in Greek three successive years."

"That's fine. But wouldn't you much rather have carried the ball sixty-five yards for a touchdown just once?"—Exchange.

His Mean Comment.

Wife (reading)—Here's the advertisement of a matrimonial agency offering to supply any man with a wife for a dollar. Husband—Oh, of course! It costs less to get into trouble than it does to get out again.

ENTHUSIASM.

Enthusiasm gives life to what is invisible and interest to what has no immediate action on our comfort in this world.—Mme. de Staël.

For polishing use a dry dannel cloth.

When using a double boiler the food will cook more quickly if the water in the outer vessel is salted in the proportion of a fourth of a cupful of salt to a quart of water

HOUSE SLIPPERS.

A Great Variety of Comfortable Shoes Suitable For Hours of Ease.

The kid house slipper is really little different from many evening slippers and street shoes. It is a pointed shoe with a high French heel. Sometimes it is decorated with a chiffon pompon, sometimes with a satin bow, sometimes with a buckle of metal, enamel or stones. Again it is tied about the instep and ankle with ribbons. Little satin slippers in black and colors also

BLUE EVENING GOWN.

For the social activities that crowd into the period preceding Lent the debutante frequently needs to replenish her stock of party frocks. A model that is both attractive and up to the minute in style is pictured here. It is fashioned of pastel blue satin, with a three tiered overskirt of plaited blue net. The short sleeves and vest are of ecru net.

Enthusiasm gives life to what is invisible and interest to what has no immediate action on our comfort in this world.—Mme. de Staël.

ALL-WOOL SERGE SUIT

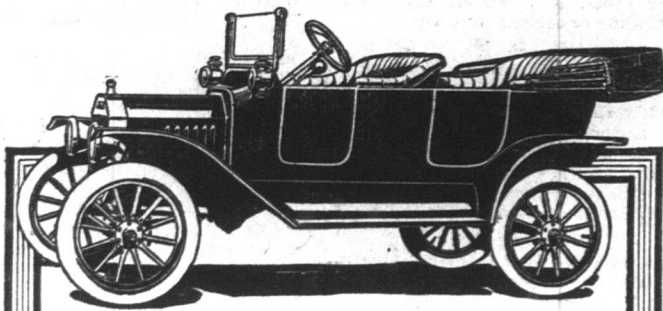

56-1844 This Suit shows a practical result in price economy due to our immense manufacturing facilities. It is of fine All-Wool English Serge bought at the mill before wool advanced, thus contributing with our workrooms to the low pricing of this suit. The smart style 28-inch coat is lined with silk-faced satin, and shows the new belted effect slightly raised at the waist line, button trimmed; the daintily embroidered organdie madras collar being removable. The skirt is one of the newest models, flaring at the foot with extra fullness from pleats at each side, while just below the coat is seen the fashionable polka—a very prominent feature with the new skirts. Busts 32, 34, 36, 38, 40, 42. Skirt lengths 34 to 42 inches. Colors—Black, Navy, Holland Blue, also the new Putty (or light fawn shade)

Carnations, Daffodils, and Violets
at special prices at Hooper's on

About fifteen pupils and one teacher are absent from the Collegiate through an attack of mumps.

The steel for the alterations in the Robinson Co.'s store arrived last week and the work is being proceeded with.

The Belleville ladies' hockey team defeated the Napanee girls 15-0 on the Napanee Rink on Friday evening last.

Mr. Dave Powell met with an accident at Deseronto races on Wednesday last. He slipped on the ice and broke his arm.

Mr. Jas. Foster has intimated that the work of building his opera house will be started as soon as weather conditions will permit.

Hair goods, the best quality, in all shades comings made up. All work guaranteed at The Medical Hall—Napanee's largest Drug Store.

Miss Charlotte Sanderson had the misfortune to fall on the icy pavement on Bridge street while going home from market on Saturday morning, breaking her ankle.

Mr. W. C. York, a brother of the deceased Blanche York, collapsed after the Robinson trial at the Court House last Thursday. He was taken to the Paisley House, attended by a doctor, and soon recovered.

The men of Trinity Church would like to send a letter to the ladies who so bountifully provided for the Military Tea last Monday evening, but such a course is not advisable on account of the cost. We are therefore taking this means of offering to all our hearty thanks for your generous help.

WIRE FENCE.

M. S. MADOLE.

USE VANLUVEN'S COAL.

Because it is economical and burns satisfactorily under all weather conditions, is easily regulated to minimum or maximum heat.

Notice To The Public.

I have taken charge of my blacksmith shop again and will guarantee all my work to please. Wheelwork I do will last throughout the year.

A. O. SINE.

ACCIDENTAL DEATH.

Mrs. Helen Lee, who has kept a boarding house on Robert street for a number of years, met with a fatal accident on Friday evening last. Mrs. Lee was clearing away the supper and fell into a trap door she had inadvertently left open. Assistance was quickly procured and the unfortunate lady was carried upstairs and a doctor called, but life was extinct. The funeral took place on Sunday afternoon in Grace Church.

McCaugherty—Glenn.

Amherst Island was the scene of another pretty wedding on the evening of February 24th, when Miss Jennie Glenn, daughter of Mr. and Mrs. William Glenn, Jr., was united in marriage to Harold McCaugherty, son of Mrs. Thomas Baker. The ceremony was performed by Rev. James Cumberland at the manse. A wedding repast followed and several guests were invited to the bride's home. Mr. and Mrs. McCaugherty took a short honeymoon and will reside at Stella.

PRESENTATION OF PRIZES AT NAPANEE COLLEGIATE INSTITUTE.

The examiners of the Essay Competition among the pupils of the Collegiate Institute, promoted by the U. E. Loyalist Chapter, Imperial Order, Daughters of the Empire, on given Imperial topics, having, a short time since sent in their report, the prizes have been awarded and will be presented on this Friday afternoon, March 12th, at 3 o'clock, in the Institute. All Daughters of the Empire are expected to be present, and a cordial invitation is extended to all interested to assist by their presence on this auspicious occasion.

ADDRESSING OF MAIL.

In order to facilitate the handling of mail at the front and to insure prompt delivery it is requested that all mail be addressed as follows:

Carnations, Daffodils, and Violets
at special prices at Hooper's on
Saturday.

Mrs. Wm. Embury, a former well
known resident of Napanee, died on
Thursday last, at her home in Toronto,
after an illness of some years. She is
survived by her husband and one
daughter. The remains were brought
to Napanee, on Saturday and placed
in the Eastern Cemetery Vault.

The spring exodus to Western Can-
ada commenced on Monday when ten
carloads of furniture, stock, etc.,
loaded. John Mack and family are
going to Druid, Alta., with two cars,
Messrs. Hughs and Kellar, Camrose,
Alta., with two cars and Messrs. J.
Schermehorn and Geo. Haines loaded
six cars for Tees, Alta. About
twenty-five persons compose the fami-
lies going west this week.

"Injun Bones and Huskies" by J. R.
Fraser in March Rod and Gun is no
lap-dog story but an account of a de-
perate encounter which two adventu-
rers in the far north had with a band
of ferocious huskies from which they
narrowly escaped with their lives.
"That Club of Patrick's" is a some-
what amusing tale—thought Pat him-
self found the experience very provok-
ing—of a captured bear cub that pro-
ved one too much for his captor. "A Visit
to the Nakimu Caves of Glacier Park,
B. C." "Windobin's Cabin," "The
Passing of the Buffalo" and other
stories and articles, along with the
regular departments, go to make up a
fine March number. This sportsman's
publication is issued at Woodstock,
Ont., by W. J. Taylor, Limited.

THE GRAHAM CO'Y.
Napanee, Ont.

Mr. W. C. York, a brother of the
deceased Blanche York, collapsed
after the Robinson trial at the Court
House last Thursday. He was taken
to the Paisley House, attended by a
doctor, and soon recovered.

The men of Trinity Church would
like to send a letter to the ladies who
so bountifully provided for the Military
Tea last Monday evening, but
such a course is not advisable on ac-
count of the cost. We are therefore
taking this means of offering to all
our hearty thanks for your generous
help.

Rev. L. G. G. Walker, Pannock-
burn, Rev. R. C. Magee, curate of
St. George's cathedral, Kingston, and
Rev. M. G. Lansbury, Parham, were
ordained in St. Mary Magdalene's
Church by the Bishop of Kingston,
on Sunday morning. In the evening
the Bishop confirmed a large class,
also inducted Rev. J. H. H. Coleman
as Vicar of St. Mary Magdalene
Church, Napanee.

Pte. Wilson, one of the 3rd contin-
gent squad, met with what might
have been a serious accident on Sat-
urday evening. Pte. Wilson was in-
structing one of the recruits how to
remove the bayonet from his rifle.
The bayonet stuck a little and Wil-
son gave an extra pull, when the
bayonet came off suddenly striking
him just below the right eye, narrow-
ly missing the eye.

The finance committee of the Red
Cross Society will hold a food sale
in the Town Hall, on Saturday,
April 3rd. Will all the friends and
workers in the Society bring in their
donations without a personal can-
vas. Donations may be left with Mrs.
J. R. Long Friday afternoon or Sat-
urday morning at the Town Hall.

The County Council are in session
this week. Messrs. J. E. Harrison,
Sheffield, and J. Irish, Denbigh, are
unable to attend owing to illness.

On Sunday morning, March 7th,
death removed another of our much
respected citizens in the person of
Mrs. Alice White, widow of the late
Thomas White, formerly of Napa-
nee. For the past twenty years
the late Mrs. White has made her
home with Mrs. H. M. Hawley, 109
Princess street, and has endeared her-
self with all who knew her. During
her late illness, which lasted over a
month, she was tenderly nursed by
her two daughters, Miss Nettie White
and Mrs. H. M. Hawley, who helped
her to bear up with such Christian
fortitude. The end was peace. The
funeral service was held at 109
Princess street Monday evening at 8
o'clock. The body will be taken to
Napanee for burial in the family plot
in Riverside cemetery.—Kingston
Whig.

On February 24th at the home of
the bride's parents, Mr. and Mrs. Robert
Kilpatrick, Amherst Island, their
daughter, Catherine Eleanor, became
the bride of William Harris Beaubien,
son of Ms. and Mrs. Joseph Beaubien.
The happy event occurred at high
noon and Rev. James Cumberland per-
formed the ceremony. Assisting the
happy couple were Miss Reta Kilpatrick,
sister of the bride as bridesmaid,
and Raymond McMaster as best man.
The bride was neatly dressed in white
silk, and entered the drawing-room
beside her father, by whom she was
given away. Those present when the
nuptial knot was tied were the par-
ents, brothers and sisters of both
parties. The house was tastily de-
corated with evergreens and car-
nations in the dining room a wedding
luncheon was served. The same evening
Mr. and Mrs. Beaubien left for
Buffalo, N. Y., and other places. Up-
on their return they will take up re-
sidence on Amherst Island, where the
bridegroom is a sturdy and industrious
farmer. The bride's travelling suit
was of grey and her hat of white
beaver with white ostrich trimmings.

ANTI-LOUSE POWDER KILLS THE NEE,
but does not injure the animal or fowl
in the slightest. It is harmless to man
and beast. 25 cents per pound at Hoop-
er's—The Medical Hall.

IMPORTANT LECTURE COMING.

Consumption the subject—We are
pleased to announce that the Ad-
vance Agent of the National Sanitar-
ium Association has been in town,
arranging for Rev. J. H. Dyke, Field
Secretary of the Association, to de-
liver his popular illustrated lecture
on Tuberculosis and the work of the
Muskoka Free Hospital for Consump-
tives. A special and entirely new
feature of the lecture will be a free
exhibition of Edison's well-known
motion picture play, "Hope", a con-
vincing presentation of the awful
truth that Tuberculosis may strike
anywhere at any time. The lecture
will be given in the Town Hall, on
Sunday, April 18th, at 8.15 o'clock,
after the close of the regular evening
services in the Churches.

Prepare your horses for the heavy
work in spring by feeding "Livery
stable condition powders." 3 lbs. for
25c at Wallace's Drug Store.

AGRICULTURAL SOCIETY.

A large number of members and
others attended the annual meeting
of the Lennox Agricultural Society,
held in the Town Hall, to discuss the
financial statement and various de-
partments of the Society. The state-
ment presented showed the society to
be in a prosperous condition and also
disclosed the fact that last year's
show was one of the best in years,
and the attendance the largest in a
number of years. The wet weather
experienced by the fair for three years
previous handicapped the manage-
ment seriously, but with good
weather the fair of last year demon-
strated the fact that the fair at Na-
panee is quite alive and held in high
esteem by the people of the surround-
ing country. Given a year or so of
good weather and the fair will im-
prove wonderfully. The palace was
filled to its capacity and the exhibits
above the average, excepting in fruit,
which was almost a total failure in
this section last year. The new poultry
house, built to accommodate more
than the usual number of birds
shown, proved to be not nearly
large enough and will have to be
doubled in capacity. The following
are those who received prizes in the
standing field crop competition: W.
H. Hunter, \$18.00; Mark Hawley,
\$15.00; Frank Hart, \$12.00; C. H.
Garrison, \$10.00; R. E. H. Hawley,
\$8.00; Geo. Johnston, \$7.00; P. E.
R. Miller, \$5.00. The Society will
award the same amount this year,
and farmers wishing to compete will
please send in their names at once.
Those who are not already members
of the Society will pay \$1.00 for
membership which will entitle them
to all the privileges of the fair. The
grain to be sown this year will be
any variety of oats. The dates for
the fair this year are Sept. 14th and
15th. Following are the officers and
directors for 1915:

President—Clarence Sharp.
1st Vice-Pres.—H. Aylsworth.
2nd Vice-Pres.—W. H. Cadman.
Sec.-Treas.—Dr. E. Ming.
Directors—Napanee, M. Jones, E. J.
Pollard; Richmond, W. R. Lott, E.
R. Sills; Ernestown, S. C. S. Mc-
Kim, J. W. Walker; North Freder-
icksburgh, A. Parks, W. Pringle;
South Fredericksburgh, Orlin Robin-
son.
Auditors—C. W. Neville, A. Alex-
ander.

DEATH AT MOSCOW.

The death occurred at Moscow
March 4th, of Mrs. John Brown, a
twenty-one years. She had only
ill two weeks, and her death cau-
much regret all over the commu-
where she was so well known. She
was born near Moscow and was
daughter of Sandford Degroff,
maiden name being Lulu Degroff.
Her husband and three small chil-
ren, the eldest five years of age,
the youngest about a year, sur-
vived. The funeral took place on Sunday

Hall—FRED. L. HOOPER.

THE HISTORICAL MEETING.

Last Friday night, Dr. W. S. Mil-
ner, Professor of Latin at the Uni-
versity of Toronto, was the lectu-
at the adjourned meeting of
Lennox and Addington Histor-
Society. His subject was "The V
and Militarism." We will not
tempt an exhaustive report of
Milner's lecture but merely say th-
it was a most scholarly and a
address. He made clear, cert-
points which have been advocated
the pacifists and showed, by so-
reasoning, how foolish it is to
forward such theories at the pres-
time. He is most careful in
reasoning, taking great pains
work out the details of each argu-
ment with precision and accura-
There were a number of points in
lecture which it would be well
all Canadians to remember, parti-
larly those of our citizens who do
realize the import of the tita-
struggle in which the Empire is en-
gaged. When our thinking men
so profoundly on these questions
surely we, who perhaps have not t-
ability to work out the problems
ourselves, should follow their ex-
ample. We must all give our best
this greatest of all attempts
crumble our Empire. After the l-
ture the President appropriately
thanked Dr. Milner for his gre-
kindness in coming to Napanee
lecture. The next meeting of
Society was announced for Frid-
evening, March 19th, when Pr-
John Dall, of Queen's Universit-
will lecture on "The Thirty Yea-
War." Prof. Dall is well known
Napanee audiences and we expect
lecture on this most interesting su-
ject will be a rare treat. The me-
ing closed with "God Save t-
King."

For horses there is nothing bett-
than Milling's Compound Iron Pow-

Institute. Silver collection at the
door.

Prayer meeting Wednesday evening
at 7.45.

PERSONALS

Mr. and Mrs. A. P. Bell are visiting
their sons in Michigan.

Mr. and Mrs. Lawrence Wright
spent last week the guests of his father,
Mr. R. G. Wright.

Mr. Albert Frizzell, Toronto, was
visiting his parents this week.

Mr. Chas. Embury, Kingston; was
in town a few days this week having
come to attend the funeral of his sister,
Mrs. Lee.

Mrs. C. A. Wiseman is spending the
week in Kingston.

Mrs. Wm. Woodcock wishes to
thank the ladies of Napanee for their
kindness in sending her flowers
while in Kingston hospital.

Mr. W. Shaver is laid up for a few
days with a nasty gash in his foot re-
ceived by slipping on some glass while
coming from South Napanee.

Mrs. Miles Miller was in Toronto on
Thursday last attending the Boyd-
Crowley wedding.

Mr. M. F. Hughes, of Kingston was
in town on Monday.

Rev. Dr. Hincks, L. L. B., of Tor-
onto, who preached excellent sermons
in Trinity Church on Sunday, was,
during his stay in Napanee, the guest
of Rev. and Mrs. S. Sellery.

Messrs. D. J. Lee, Niagara Falls,
N. Y. and Harry C. Lee, Toronto,
were in Napanee this week attending
the funeral of the late Mrs. Helen Lee.

Miss Nellie Herring spent last week
in Toronto.

Miss Checkley spent the past week
with friends in Montreal.

Mrs. Chas. Zoelner, Toronto, is visit-
ing her parents, Mr. and Mrs. Robt.
Frizzell. Miss Hattie Frizzell has
also returned from Toronto.

Captain Rev. W. E. Kidd M. A.,
Chaplain with the 3rd contingent, was
in town on Wednesday, and preached
in the evening at St. Mary Magdalene's
Church.

Rev. J. H. H. Coleman preached at
a Lenten service in St. George's Cathed-
ral, Kingston, on Wednesday even-
ing.

Mrs. J. Donnelly, Kingston, is the
guest of Mrs. F. P. Douglas.

Capt. Rev. Kidd was the guest of
Dr. and Mrs. Vrooman while in town
this week.

Mrs. F. F. Miller and Miss Diana
are spending a few days in Toronto.

Mr. Thos. Wiggins left on Wednes-

TRINITY ANNIVERSARY SUPPER.

The men of Trinity Church this
year gave the anniversary supper and
concert in the Church on Monday
evening. The programme for the con-
cert and all the arrangements for the
supper were carried out by a commit-
tee of the men of the Church. The
tables were prepared and decorated
by the men and an efficient corps of
young men waited on the tables as
well as looking after the provisions,
washing the dishes and re-setting the
tables. Those who took part in the
programme were Messrs. F. Kells, P.
L. Nesbitt, Pte. Geo. Harner, Mr. F.
Carson, Mr. F. Shephard, Pte. A.
Laughlin, Mr. Fred Cliffe, Pte. De-
Lisle, Mr. Weiss, Pte. Harry Bristol,
assisted by a splendid chorus and
orchestra. The recruits for the third
contingent were given complimentary
tickets to supper and concert.

Mt. Ararat Encampment, No. 16,
I.O.O.F., will meet in Argyll Lodge
rooms, on Monday evening, next,
March 15th, at 8 o'clock. All mem-
bers urgently requested to be present.

ST. MARY MAGDALENE'S CHURCH

The Right Rev. E. J. Bidwell, D.D.,
D.C.L., arrived in Napanee on Friday
last and gave devotional addresses
that evening and on Saturday to the
candidates for the priesthood. Very
beautiful and impressive services were
held in St. Mary Magdalene's Church
on Sunday and were enjoyed by
large and reverent congregations. At
8 a.m., the Holy Communion was
celebrated by Rev. C. E. Radcliffe,
B.C.L., Rector of St. Mark's, Deser-
onto, assisted by Rev. C. Sydenham
Lindsay, of Montreal. At 9.30 Matins
was said by the Vicar, Rev. J. H. H.
Coleman, M.A. At 10.30 came the
ordination, three deacons being ad-
vanced to the Priesthood. The ser-
vice began with a sermon, able,
thoughtful and convincing, by the
Rev. Canon Fitzgerald, M.A., Vicar
of St. Paul's, Kingston. The subject
was "The Christian Ministry," and
the text, St. Mark III, 14. As ex-
amining Chaplain, Canon Fitzgerald,
also presented the candidates to the
Bishop, after which the Vicar said
the Litany. The Holy Communion
was then begun, the Bishop being the
celebrant. After the Gospel had been
read by the Rev. R. W. Irvine, Selby,
the Bishop gave the exhortation in
the Ordinal and the solemn questions
to the deacons, who made the re-
quired answers and vows. Then fol-
lowed a space of silence for secret
prayer; the singing of the Veni
Creator, (Come, Holy Ghost); and
the prayer said by the Bishop, after
which came the supreme moment of
the service, when the Bishop, with
the priests present, laid their hands
severally upon the head of everyone
that received the Order of Priesthood,
the Bishop saying the words of
Ordination. After the delivery of a
Bible to each with the authorizing
to preach and to minister the sacra-
ments, the rest of the Holy Commu-
nion service followed. Woodward's
beautiful setting was used for the
choral parts, and the number of com-
municants was large. The deacons
advanced to the priesthood were Rev.
L. G. Osborne Walker, of Bannock-
burn; Rev. R. Crozier Magee, curate
of St. George's Cathedral, Kingston,
and Rev. W. G. Lanstury, of Par-
ham. In the evening the congrega-
tion was even larger than in the
morning, and chairs had to be
brought in to augment the seating
capacity. In addition to the clergy
who were present in the morning,
Rev. A. H. Creeggan, Rural Dean of
Hastings, took part in the service.

After the processional hymn the
Bishop instituted Rev. J. H. H.
Coleman, M.A., as Vicar of the
Church of St. Mary Magdalene.

SEED FOR SALE.

The Agricultural Office have issued
a list of seed for sale by farmers in
the County. This list may be had
free on application. A sample of
each man's seed is kept, and marked
with the Government Grade. All
sales must be made direct between
the buyer and seller, as these samples
are kept for reference only. To ob-
tain this list of seed for sale, call at
the Agricultural Office, or write Mr.
G. B. Curran, Napanee. 14-11

WON'T REVIVE TAMWORTH CASE.

It was stated from the department
of the attorney-general that there is
a further charge which they could
lay against Dr. C. K. Robinson,
Tamworth, if they chose to press the
case, but just at present they have
no intention of doing so. The charge
would be concealing a body. The
attorney-general is waiting the re-
port of the county crown attorney
of Napanee, but he does not antici-
pate that any further steps will be
taken in the case at all.

ABOUT "OUR" SOLDIERS.

The members of Napanee Lodge No.
86, I.O.O.F., are entertaining to-
night "our" soldier boys in their
beautiful rooms on the Harshaw
Block. Refreshments, games and
music will comprise part of the pro-
gramme. The citizens of Napanee are
proud of the men who are going to
the front from here, and are striving
to make their stay with us as pleas-
ant for them as possible.

By invitation the local volunteers
will attend divine service in Grace
Methodist Church on Sunday morning
next.

Under the able instruction of Lieut.
Travers and Lieut. Fleming the local
volunteers are fast rounding into
shape. Besides drilling the boys are
doing eight and ten mile marches a
day.

Wherever you see the soldiers drill-
ing on our streets you will see an
admiring crowd of citizens. Nothing
but words of praise are heard for the
excellent manner in which the soldiers
go through their drill.

Mrs. F. F. Miller has presented
eleven of the soldiers with "house-
wife" which will be found very use-
ful. They are much appreciated.

Executive and members of the E. E. Loyalist Chapter, I.O.D.E., esire to offer their very sincere thanks to the gentlemen who have so kindly assisted the Chapter by examining the essays for the competition in the Collegiate Institute and West Ward Public School, awarding prizes offered by said Chapter, and giving of their time and talents to this interesting and Imperialistic work.

THE HISTORICAL MEETING.

Last Friday night, Dr. W. S. Milner, Professor of Latin at the University of Toronto, was the lecturer on the adjourned meeting of the ex-novo and Addington Historical Society. His subject was "The War and Militarism." We will not attempt an exhaustive report of Dr. Milner's lecture but merely say that it was a most scholarly and able address. He made clear, certain points which have been advocated by pacifists and showed, by sound reasoning, how foolish it is to put forward such theories at the present time. He is most careful in his reasoning, taking great pains to work out the details of each argument with precision and accuracy. There were a number of points in the lecture which it would be well for Canadians to remember, particularly those of our citizens who do not realize the import of the titanic struggle in which the Empire is now engaged. When our thinking men feel profoundly on these questions rely we, who perhaps have not the ability to work out the problems for ourselves, should follow their example. We must all give our best in the greatest of all attempts to stabilize our Empire. After the lecture the President appropriately thanked Dr. Milner for his great kindness in coming to Napanee to lecture. The next meeting of the society was announced for Friday evening, March 19th, when Prof. H. H. Hall, of Queen's University, will lecture on "The Thirty Years' War." Prof. Hall is well known to Napanee audiences and we expect his lecture on this most interesting subject will be a rare treat. The meeting closed with "God Save the King."

For horses there is nothing better than a Milling's Compound Iron Powder, "Improved", they regulate the sole system. You get the right kind at Hooper's—The Medical Hall.

at the evening at St. Mary Magdalene's Church.

Rev. J. H. H. Coleman preached at a Lenten service in St. George's Cathedral, Kingston, on Wednesday evening.

Mrs. J. Donnelly, Kingston, is the guest of Mrs. F. P. Douglas.

Capt. Rev. Kidd was the guest of Dr. and Mrs. Vrooman while in town this week.

Mrs. F. F. Miller and Miss Diana are spending a few days in Toronto.

Mr. Thos. Wiggins left on Wednesday for Saskatoon, Sask.

Mrs. Shore Loynes had a bad fall on Saturday morning and is still confined to the house.

Mr. and Mrs. J. L. Boyes, Napanee, and Mrs. C. H. Boyes, Kingston, left last week for California.

Mr. and Mrs. F. W. Vandusen are spending the week in Toronto.

Miss Florence Stevens spent a few days this week in Kingston.

Mr. and Mrs. W. Dunbar visited Mr. and Mrs. Andrew Madden, Deseronto, a couple of days this week.

Mr. and Mrs. J. H. S. Derry entertained on Friday evening last—Cards.

Canon and Mrs. Fitzgerald were guests of Mr. and Mrs. W. S. Harrington while in town last week.

Rev. Walker was the guest of Mr. and Mrs. Edw. Wilson, and Rev. Lemsbury, the guest of Mr. and Mrs. H. W. Kelley, while in Napanee for ordination.

Mrs. Dr. Bradshaw and daughter Madeline, left on Monday for Markham and thence to Portage-La-Prairie.

Mr. and Mrs. Maurice Smith and family who have been spending the winter with his parents, Mr. and Mrs. Robt. Smith, South Napanee, left on Wednesday for Gull Lake, Sask.

The Rev. Canon H. Bedford-Jones, M. A. Rector of St. Peter's Brockville and Examining Chaplain for the Bishop, spent several days last week with Mr. and Mrs. A. T. Harshaw, at Hillcrest.

Mrs. Robinson, mother of Dr. Robinson, Mrs. Jones, a sister, Mrs. Oliver Robinson, of Kingston, and Mr. Norman Robinson of Toronto, were the guests of S. E. Scott during the trial. Dr. Robinson called at S. E. Scott's before leaving for Kingston, and Mr. Robinette, Toronto, and Mrs. Clifford Home, Kingston, spent Tuesday with Mrs. S. E. Scott.

MARRIAGES.

BAKER—McGARVEY—At the Methodist parsonage, Morven, on the sixth of March, 1915, by the Rev. D. Williams, Mr. Stewart Benson Baker, of Ennetown, to Miss Annie McGarvey, daughter of Mr. Robert A. McGarvey, of Camden East.

THOMPSON—DETJOR — At Trinity Methodist parsonage, on Wednesday, March 10th, 1915, by the Rev. S. Solery, M. A., B. D., Mr. Herbert Thompson, of Kennebec Township, County of Frontenac, to Miss Effie Detlor, of Sheffield Township, County of Lennox and Addington.

DEATHS

DAFOE—At South Fredericksburgh, on Sunday, March 7th, 1915, Mary Elizabeth Dafoe, aged 79 years, 9 months.

EMBURY—At Toronto, on Thursday, March 4th, 1915, Kate Easton, beloved wife of Mr. William Embury.

ROBERTSON—At South Fredericksburgh, on Sunday, March 7th, 1915, Dorothy Robertson, aged 86 years, 1 month, 10 days.

East End Barber Shop.

Everything neat; first class workmen; cigars and tobacco. Give me a call.

J. N. OSBORNE.

Mr. Osborne, Walker, of Pannockburn; Rev. R. Crozier Magee, curate of St. George's Cathedral, Kingston, and Rev. W. G. Lansbury, of Parham. In the evening the congregation was even larger than in the morning, and chairs had to be brought in to augment the seating capacity. In addition to the clergy who were present in the morning, Rev. A. H. Creeggan, Rural Dean of Hastings, took part in the service. After the processional hymn the Bishop instituted Rev. J. H. H. Coleman, M.A., as Vicar of the Church of St. Mary Magdalene. He also dedicated a cross, two vases, and an alms basin in memory of Reuben Maurice Wright, and an altar desk in memory of Mary Cobb, wife of Thos. Light, all for use in the chapel. After Evensong the Bishop preached a very fine sermon from 2 Tim., IV, 7, and administered confirmation to a class of eleven. On Monday morning the Bishop gave a short address to the young on Lenten observance, which was greatly appreciated. Altogether, his visit to Napanee was most helpful and inspiring.

NAPANEE RIFLE ASSOCIATION

The following are the average scores made by each squad last week, together with the highest individual score made in each squad:

	Average	High Score
Squad No. 2	41.37	D. R. Benson.. 53
Squad No. 3	43.33	G. Reiffenstein 56
Squad No. 4	35.91	J. B. Allison.. 56
Squad No. 5	36.83	S. C. Richardson 45
Squad No. 6	46.62	H. Milling..... 55
Squad No. 7	43.13	R. S. Ham..... 54
Squad No. 8	47.62	W. B. Henwood 56
Squad No. 9	35.71	W. J. Shannon 52
Squad No. 10	40.42	St. J. G. Forster 54
Squad No. 11	33.28	Mr. Brown..... 69
Squad No. 12	45.00	C. Windover.. 64
Squad No. 13	44.50	Dr. Smith..... 55
Squad No. 15	40.57	A. McGregor.. 50
		Dr. Leonard... 50
Squad No. 16	50.20	H. E. Dunlop.. 61

Mr. Clarence Windover, a member of Squad No. 12, wins the individual prize, and Squad No. 16 wins the average prize.

For the week commencing March 15th, squads will shoot on the same nights and at the same hour as usual.

All shooting will be done with a rest.

KEEP YOUR HORSES IN GOOD CONDITION.

Three pounds of Livery Stable Condition Powders for 25c at Wallace's Drug Store Limited, agents for Bell's Veterinary Remedies.

Travers and Lieut. Fleming the local volunteers are fast rounding into shape. Besides drilling the boys are doing eight and ten mile marches a day.

Wherever you see the soldiers drilling on our streets you will see an admiring crowd of citizens. Nothing but words of praise are heard for the excellent manner in which the soldiers go through their drill.

Mrs. F. F. Miller has presented eleven of the soldiers with "housewife" which will be found very useful. They are much appreciated.

TRINITY CHURCH NOTES.

The anniversary services held on Sunday and Monday, March 7th and 8th, were pronounced the most successful since the opening of the Church eight years ago. Rev. Hincks preached two very able, helpful and inspiring sermons to large congregations. His services were very much appreciated and his visit to Trinity Church will not soon be forgotten. It is expected that the amount asked for by the Trustee Board will be realized when all the returns are in. The music by the choir and orchestra was exceptionally good, especially the rendering of the Hallelujah Chorus. Dr. Hincks took occasion to commend the choir for the excellent musical service. The military supper and concert by the men of the congregation was an immense success. About 500 sat down to a splendid supper, and were waited on by "men only." The supper realized over \$200.00. The men deserve very great credit for the success of this unique and interesting banquet. Of course the ladies did the cooking. The pastor will deal next Sunday morning with the most searching petition of the Lord's Prayer and in the evening with "What is wrong with the world and what is the remedy for all its evils."
